WILLIAMS' SAW MILL TOTALLY DESTROYED.

This City Was Visited by a Most Disastrous Fire at an Early Hour
This Morning.

LOSS WILL AMOUNT TO ALMOST \$13,000

While the Insurance Will Not Foot Up Over \$6,000 at the Very
Outside.

A TYPEWRITER THE ONLY THING SAVED

The most destructive fire in many years from the standpoint of loss to the owner of the property occurred at 5:30 this morning.

The fire broke out at a point about the center of the Williams saw mill, at the foot of Second street, near the spot where the gas engines are located, and in a very few minutes the interior of the mill was enveloped in flames.

Those who were on the ground early state that it looked as though nothing could save the building, there being such a large quantity of inflammable material within the mill. Their theory proved correct, as not a thing was saved with the exception of a typewriter and some articles of wearing apparel which were in the office.

An alarm was sent in from box 34, and although the department had some difficulty in getting down the hill owing to the ice, the horses attached to the hook and ladder wagon falling several times before the bottom of the hill was reached, the apparatus reached the scene of the conflagration in good time.

Satisfied that the mill itself could not be saved the department turned their attention to the adjacent buildings. A building just opposite the burning building on the north side of the railroad track was in great danger, and the water pressure was so light that the stream directed upon it hardly reached half way to the roof. This was due to the main at that point being so much smaller than the ordinary main.

The East End department reached the city at about 6 o'clock and immediately commenced the task of saving the oil room, which is situated directly to the east of the main building, and contained 150 barrels of crude oil. Few people in the vicinity knew the danger of the fire spreading to this building, as it is safe to say they would have stopped farther away, but to the efficient work of the department can be attributed the salvation of this part of the property.

Mr. Williams' loss will be very heavy, reaching almost \$13,000, with between \$4,000 and \$5,000 insurance. This is divided between two companies, and Mr. Williams was unable to tell when seen this morning just how much it would amount to. A large quantity of green lumber, which was piled about the building, was saved, together with the warehouse.

In a New Position.

James Moore, superintendent of the packing department of the Akron, O., China company, has left there to accept a similar position with the Taylor, Lee & Smith Co., at Chester, W. Va. T. J. Mumford succeeds Mr. Moore at the Akron pottery.

A. C. McQuillin returned from New Brighton yesterday, where he had been attending a funeral.

JOHN S. GOODWIN

WAS TAKEN FOR ALFRED VANDERBILT AT ALBANY.

The Local Pottery Salesman Created a Furore in a Store at New York City.

The Crockery Journal tells a good story of how John S. Goodwin, of this city, unintentionally created some excitement at Albany several days ago.

The story is as follows:

"As everybody knows, John S. Goodwin, of East Liverpool, is always well dressed and carries himself with an air of distinction. Last Thursday he and F. W. Moore were in Albany. It chanced that Alfred G. Vanderbilt and his wife were also there. Goodwin and Moore called on J. G. Meyers in the course of business, and were passing through the store looking for Ernest Wade—Goodwin with the lapels of his \$500 seal lined overcoat thrown back, walking with slow and stately step—when one of the salesgirls exclaimed: "There he goes! There's Vanderbilt!"

"Instantly the word was passed along, not only by the salespeople, but by customers as well, and there was a stampede to see the famous son of a famous sire. Mr. Goodwin was quite unconscious of the furore he was creating. Just then Wade came up with a "Hello, John! How's crockery?" and shook him warmly by the hand. Then the crowd melted away.

"Goodwin paid for the dinners that night, and said he was glad to do it."

THE SCOTT POTTERY

WAS SOLD AT PUBLIC AUCTION LAST WEEK.

The End of a Long And Bitter Fight Between Members of Cincinnati Pottery Firm.

The George Scott Sons' pottery, in Cincinnati, was sold last week at public auction by order of court. The sheriff sold the real estate in the partition proceedings for \$15,196.67, and R. J. Waite, receiver of the firm, sold the firm assets for \$3,100. The cottages in Sargent street sold for \$1,400, making the total sales amount to \$19,696.67. S. A. Waite and G. E. Scott bought the pottery real estate and S. A. Waite the firm assets. The business will be opened at once, and under a new name. Mr. Scott does not anticipate any trouble in settling with his creditors. This will terminate a long and bitter fight.

Mike Fennell left today for his home in Wheeling. He was called here by the serious illness of his mother, who lives on lower Fourth street. The lady is somewhat improved.

HAVE REACHED AN AGREEMENT

The Case of David Boyce Vs. S. C. Williams Has Been Settled.

SUPPLY OF THE PLAINTIFF'S

Lisbon, Feb. 9.—(Special.)—A satisfactory agreement without trial has been reached in the case of David Boyce et al. against S. C. Williams. By the terms of the agreement the plaintiff may continue to use the natural gas emanating from the well now drilled upon the premises in East Liv-

erpool. They may also have the right of egress and ingress into the same and maintain their pipe line until such time, as in the opinion of the plaintiffs, that it shall no longer be profitable. At this time it is decreed that the interests of the plaintiffs in the property shall cease entirely.

In November, 1886, W. C. Morrow leased two lots fronting on Second street to Boyce for the purposes of drilling for oil and gas and a paying well was found. Three years later Williams purchased the land, it is claimed, knowing the rights of the plaintiffs by reason of his lease. In violation of the rights of the plaintiffs, it is alleged, that the defendant threatened to shut off the gas supply and so infringe on the plaintiff's rights.

Judge Hole this morning ordered that Boyce shall have the right to remove the buildings, derrick, tools, etc., and that neither party are to drill any more wells on the land.

NEW BRAKE

INVENTED BY A LOCAL MAN TO BE TESTED.

It Will be Completed Today And Will be Tried Next Week.

The patent brake invented by an East Liverpool man and being turned out at a local machine shop, will be completed today.

Some delay in its completion was caused by a piece of the apparatus,

which was made in Pittsburg, breaking, and it was necessary to make a new one. This will be done today, and it is likely a test will be made early next week.

The new appliance is made to attach to the front end of the car near the controller, and the part of the machine which does the work is suspended between the rails in the shape of a huge anchor.

The people interested in the invention are confident that it will be a success, and are anxiously waiting for the time when a test will be made.

ELECTED OFFICERS.

OAK GROVE PARK COMPANY MET LAST NIGHT.

Constitution and By-Laws for the New Organization has Been Adopted.

The Oak Grove Park company, which has purchased Spring Grove camp ground, met last evening and elected the following officers:

President—Samuel Stevenson.
Vice President—Hamlin Barnes.
Treasurer—T. R. Andrews.

Secretary—Sherman T. Herbert. Constitution and by-laws were adopted and a committee appointed to fix ground rent for cottage owners who are not stockholders.

SLIPPERY INCIDENTS.

A Few Accidents Which Occurred As a Result of the Ice This Morning.

James Isett, son of Daniel Isett, of High street, East End, fell and broke his collar bone while attempting to descend an icy path this morning.

Mrs. Edward Spivey, of Calcutta road, fell and seriously injured her spine this morning. She was also injured internally and complications may result.

Jerry Dennis fell and dislocated his ankle late yesterday evening.

INJURED HIS EYE.

James V. Pope, the Well-Known Engraver, Met With a Very Painful Accident.

James V. Pope, the well known engraver, is now a firm believer in the adage "that misfortune never comes singly." He was just recovering from a severe illness and was working on a toy for his boy when a stick flew up and struck him in the eye, almost destroying the sight of the optic.

A physician was called and attended to the wound.

IN A NEW POSITION.

Timmy Stapleton Has Accepted a Position With W. H. Gass.

The popular young shoe salesman, Mr. Timothy Stapleton, has accepted a position with W. H. Gass and will enter on his duties next Monday morning.

Timmy will be glad to meet his old friends and acquaintances in his new quarters.

Deroads Got a Verdict.

Lisbon, Feb. 9.—(Special.)—Chas. L. Deroads, of Franklin Square, was given a verdict last night for \$40 damages against Michael Moran. Deroads is about 25 years of age and claimed that Moran, who is about, 65, gave him a good beating on the public road in Salem township, thereby injuring him in his reputation about the town as a paper hanger and painter. He wanted judgment for \$5,500, but is evidently satisfied, as there has been no application for a new trial. The jury was out until 11 o'clock.

THE JURYMEN GET \$2 PER DAY

When They Hear Oleomargarine Cases and the Prosecuting Attorney Asked For The

LAW ON THE SUBJECT

Meanwhile the Jurymen Who Heard the Case Here Are Still Waiting For

WHAT IS COMING TO THEM

When the case against Frank Kratz for selling impure oleomargarine was disposed of and Judge Fawcett was about to leave this city for his home in Canton, he informed Justice McLane, before whom the case was tried, that under the law governing the food and dairy department the jury in this case were entitled to \$2 per day for their services.

Accordingly the justice made out the amount in that manner and submitted it to the county auditor for payment. Prosecuting Attorney Brooks refused to allow the bill to go through, and stated he would not o. k. the same until the magistrate could show the law on the subject.

Justice McLane at once wrote Judge Fawcett and this morning received a communication from him containing the information that he had corresponded with the department at Columbus, who had stated both the food and dairy laws and the regulations governing the offense of cruelty to animals, granted jurors \$2 per day. They also cited two instances, one at Cincinnati and the other in Cuyahoga county, wherein the authorities were compelled to allow the bill.

This ruling is doubtless based upon the fact that in cases of this character the decision of a jury or magistrate is final, and holds as good as any higher court ruling.

ENTRIES CLOSED.

All the Candidates for County Office Have Been Announced.

Lisbon, Feb. 9.—(Special.)—The entries for the coming Republican primaries closed today. Kannal, of East Palestine, and Farrell, of Lisbon, prominently mentioned as candidates for commissioner, failed to enter, as did U. V. Gaskill for infirmary director.

All the other candidates for the various offices announce that they are in the fight to a finish.

Court Has Adjourned.

Lisbon, Feb. 9.—(Special.)—Court adjourned until Tuesday at 1 o'clock, when there will be a short session, owing to the fact that circuit court will convene on Tuesday for a session that will last a week.

Local union No. 9 met in regular session last evening at their hall in the Thompson building and transacted routine business. The matter of the adoption of new by-laws was up for consideration, and after the consideration of those submitted by the committee they were adopted.

The largest single shipment ever made by express from this city was sent out day before yesterday. It amounted to over 4,400 pounds and cost about \$200.

HELEN GOULD'S Y. M. C. A.

Millionairess Gives Naval Branch of Brooklyn Finest Y. M. C. A. Building In the World.

Copyright 1901 The Christian Herald, N. Y.

What will undoubtedly be the finest Young Men's Christian Association building in the world, is now being erected in Brooklyn by Miss Helen Gould as a memorial to her parents. The structure will cost \$300,000, and will be a naval branch of the Y. M. C. A. It is within three blocks of the navy yard. The present membership of the Naval Y. M. C. A. numbers over 500. It was organized less than two years ago at 167 Sands street, with 45 members. Work among the men of the naval service was at once begun. Clean beds, a good cuisine and well furnished parlors, supplied with everything for the comfort of the men were the attractions offered. The result was a steady increasing patronage, until at last the old quarters had to be torn down to make way for the new and more commodious building. The basement of this new building will contain bowling alleys, plunge baths, a well equipped gymnasium, and nearly 500 lockers. On the ground floor will be the secretary's office, a reading room and parlor and a large restaurant. The upper floors will have 200 bed rooms. These rooms will all be fully furnished by the Women's auxiliary, and anyone, on payment of \$50, which sum will be expended for the furnishing of a bed room, can have the privilege of naming any one of them as the donor may desire. The top floor will have an auditorium where entertainments will be held at frequent intervals. A special feature of this magnificent new building will be the roof garden. The entire roof will be made into an open-air theater, where the sailor and his friends may enjoy the cool sea breezes while listening to splendid programs of amusement.

The branch has been accomplishing wonders in leading a great many sailors and marines to acknowledge God's love and power. It acts as a central pivot, where "Jack" may turn for advice and help of whatever character he should desire. An average of \$600 is received monthly by Secretary Frank L. Smith, which members forward to him from all parts of the world, to be applied as they direct; some times he is to send the money to their mothers, wives or relatives; again, he is to deposit it in a savings institution.

The Naval Branch does not stay at home, so to speak. It makes itself felt in the navy yard, at the hospital, in the marine barracks and on board visiting ships. The latter carry away packages of magazines and similar literature, to beguile hours at sea or on remote stations. While lying at the yard sick boys are visited and commissions executed for those who are disabled.

The success of the Brooklyn Naval branch has been so pronounced that the international committee of the Young Men's Christian associations have recently organized other branches at naval stations at Guam, Ladrones islands; Cavite arsenal, Philippine islands; San Juan, Porto Rico, and at Havana, Cuba. The privileges are open to all members at these stations, as well as at some other 20 associations in our seaport cities. Branches have been formed, too, on board a number of Uncle Sam's ships.

Temperance branches have also been organized on many ships, and each member signs a pledge to wholly abstain from all intoxicating liquors, as a beverage, during the period of his service in the navy. No fee is charged for membership in this league, and each member is given a neat silver-oxidized pin, which is worn by him constantly. For each year of faithful membership and upholding of the pledge, handsome insignia will be conferred. The navy department at Wash-

ington will further recognize this movement by adding to the present enlistment blank a column headed "Total Abstinence," to be marked "Yes" or "No" each quarter, by the commanding officer of the ship, to the best of his knowledge and belief.

POTTERY NOTES.

SOME ITEMS IN REGARD TO PLANTS OF THE COUNTRY.

A Movement is on Foot to Erect a Monument to the Memory of J. Hart Brewer.

China, Glass and Pottery Review.

A movement is on foot to have the manufacturing potters of the country erect a monument to the memory of John Hart Brewer for his work in the development of pottery.

Bell Bros., Findlay, state that since the fire they are in better shape than ever before. They have built a new new decorating kiln and will turn out some fine effects in decalomanie and underglaze. They have 42 new designs ready for 1901.

A number of inquiries have been received as to the kind of ware the Cambridge Art Pottery company, of Cambridge, Ohio, are going to manufacture. Their line will embrace faience vases, jardinières, pedestals, clay specialties, glazed and underglaze colors in pottery ware.

The J. B. Owens Pottery company, Zanesville, Ohio, are adding an additional space of 60,000 square feet to their famous plant, and are building six decorating kilns and will probably, after April 1, add two more.

The citizens of Jersey City, N. J., are conjecturing as to where their new pottery is to be located. It has been learned that a pottery company has opened negotiations with an agent relative to the purchase of 14 full-sized lots in the district. The concern in question is located in Ohio and does a large export trade. Should the present negotiations be successfully concluded a plant subsidiary to the one in Ohio, but large enough to furnish employment for about 130 people, men and girls, will be established.

UNION POTTERY

Will Resume Operations Within the Next Few Weeks.

The affairs of the new Union Pottery company are now in such shape that it can be announced with some degree of certainty that the plant will be placed in operation within the next few weeks.

All the ware in hand has been disposed of with the exception of a few odds and ends, and not much time will be required to place the pottery in readiness for operating, although a few changes are contemplated.

13TH ANNIVERSARY

Of the Organization of the Local Christian Church Will be Celebrated Tomorrow.

The thirteenth anniversary of the founding of the Christian church in this city will be observed by the local congregation tomorrow.

The morning service will be given over to the celebration, and Rev. Gorell will preach a special sermon.

Special music will be rendered and the event commemorated in a fitting manner.

EAST END.

Sprained Her Ankle.

Mrs. John Debee, who works at the Laughlin pottery, while on her way to work yesterday afternoon fell and sprained her ankle. By a painful effort she succeeded in reaching the pottery, but the member became so swollen that she was obliged to send for her husband, who took her home in a buggy.

Entertained Friends.

Mrs. Jacob Arnold entertained a select party last evening in honor of her guests, Mr. and Mrs. McCune, of Marietta, O., who will return to their home today.

Progressive euchre was the game, which lasted until midnight, when a dainty luncheon was served. The affair was greatly enjoyed by all present.

On the Slippery Streets.

It was quite a common thing to take a tumble this morning. One little girl fell under a milk wagon, and a number of ladies remained away from work because of the difficulty in walking.

Returned Home.

Abner Martin returned from Smith's Ferry yesterday, where he had been visiting his cousin, John Laughlin, who is suffering with cancer of the stomach.

Fire Department Called.

The East End fire department was called to the city at about 5:45 a. m. and was accompanied by Firemen Spence, Rhue, Wilson and Cain.

Able to be Out.

Councilman John Arnold was out for the first time in several weeks yesterday. He was strong enough to walk to the barber shop.

Personals.

Mrs. A. Mountford spent the day in Pittsburg.

Among the Sick.

Mrs. Thomas Strain is seriously ill with the grip, which threatens to develop into pneumonia.

Mrs. T. A. Mills, of Dixonville, is very ill with the grip.

Master Lee Crawford is suffering with a bad case of typhoid fever.

Wm. Easterdale is seriously ill with typhoid fever.

Jessie Riley is ill with the measles.

REVIVALISTIC.

A Pathetic Scene at the First Methodist Episcopal Church Last Night.

There was a nice audience present at the First M. E. church last night. Rev. Orcutt, of the Second M. E. church, East End, delivered a brief address, full of pathos and power, along the line of thought of apostolic preaching, the power of the gospel of the Son of God. The address evidently created a deep impression among the audience, and the outlook is that it will bear good fruit.

The pastor, Dr. Clark Crawford, followed with a brief exhortation, and then seekers for salvation were invited to the mercy seat, seven persons responding.

A very pathetic incident was that of a mother and her two little daughters kneeling at the front, pleading for the Master's pardon and forgiveness. The mother was evidently intensely in earnest.

Meeting tonight as usual, at the regularly appointed hour. You have an urgent invitation to be present and take part. "Come, and we will do thee good."

Wine of Cardui

Rockford, Tenn., Aug. 16, 1899.
I have suffered from womb trouble for five years. Last spring a year ago I was bedfast for six months. I paid \$52 to one doctor, and he said he had done all he could for me. I had about given up, but called another doctor, who said I would have to have surgical treatment. I decided I might as well die a natural death as that. I happened to get hold of a Ladies' Birthday Almanac, and decided to try your treatment. In nine days after I commenced taking Wine of Cardui and Black-Draught I could walk across my room, and in three weeks I made myself a dress. This was after my neighbors, and even my brothers and sisters, said I would never be any better. I am now in good health.

HELEN GOULD'S Y. M. C. A.

Millionairess Gives Naval Branch of Brooklyn Finest Y. M. C. A. Building In the World.

Copyright 1901 The Christian Herald, N. Y.

What will undoubtedly be the finest Young Men's Christian Association building in the world, is now being erected in Brooklyn by Miss Helen Gould as a memorial to her parents. The structure will cost \$300,000, and will be a naval branch of the Y. M. C. A. It is within three blocks of the navy yard. The present membership of the Naval Y. M. C. A. numbers over 500. It was organized less than two years ago at 167 Sands street, with 45 members. Work among the men of the naval service was at once begun. Clean beds, a good cuisine and well furnished parlors, supplied with everything for the comfort of the men were the attractions offered. The result was a steady increasing patronage, until at last the old quarters had to be torn down to make way for the new and more commodious building. The basement of this new building will contain bowling alleys, plunge baths, a well equipped gymnasium, and nearly 500 lockers. On the ground floor will be the secretary's office, a reading room and parlor and a large restaurant. The upper floors will have 200 bed rooms. These rooms will all be fully furnished by the Women's auxiliary, and anyone, on payment of \$50, which sum will be expended for the furnishing of a bed room, can have the privilege of naming any one of them as the donor may desire. The top floor will have an auditorium where entertainments will be held at frequent intervals. A special feature of this magnificent new building will be the roof garden. The entire roof will be made into an open-air theater, where the sailor and his friends may enjoy the cool sea breezes while listening to splendid programs of amusement.

The branch has been accomplishing wonders in leading a great many sailors and marines to acknowledge God's love and power. It acts as a central pivot, where "Jack" may turn for advice and help of whatever character he should desire. An average of \$600 is received monthly by Secretary Frank L. Smith, which members forward to him from all parts of the world, to be applied as they direct; some times he is to send the money to their mothers, wives or relatives; again, he is to deposit it in a savings institution.

The Naval Branch does not stay at home, so to speak. It makes itself felt in the navy yard, at the hospital, in the marine barracks and on board visiting ships. The latter carry away packages of magazines and similar literature, to beguile hours at sea or on remote stations. While lying at the yard sick boys are visited and commissions executed for those who are disabled.

The success of the Brooklyn Naval branch has been so pronounced that the international committee of the Young Men's Christian associations have recently organized other branches at naval stations at Guam, Ladrones islands; Cavite arsenal, Philippine islands; San Juan, Porto Rico, and at Havana, Cuba. The privileges are open to all members at these stations, as well as at some other 20 associations in our seaport cities. Branches have been formed, too, on board a number of Uncle Sam's ships.

Temperance branches have also been organized on many ships, and each member signs a pledge to wholly abstain from all intoxicating liquors, as a beverage, during the period of his service in the navy. No fee is charged for membership in this league, and each member is given a neat silver-oxidized pin, which is worn by him constantly. For each year of faithful membership and upholding of the pledge, handsome insignia will be conferred. The navy department at Wash-

ington will further recognize this movement by adding to the present enlistment blank a column headed "Total Abstinence," to be marked "Yes" or "No" each quarter, by the commanding officer of the ship, to the best of his knowledge and belief.

POTTERY NOTES.

SOME ITEMS IN REGARD TO PLANTS OF THE COUNTRY.

A Movement is on Foot to Erect a Monument to the Memory of J. Hart Brewer.

China, Glass and Pottery Review.

A movement is on foot to have the manufacturing potters of the country erect a monument to the memory of John Hart Brewer for his work in the development of pottery.

Bell Bros., Findlay, state that since the fire they are in better shape than ever before. They have built a new new decorating kiln and will turn out some fine effects in decalomanie and underglaze. They have 42 new designs ready for 1901.

A number of inquiries have been received as to the kind of ware the Cambridge Art Pottery company, of Cambridge, Ohio, are going to manufacture. Their line will embrace falence vases, jardinières, pedestals, clay specialties, glazed and underglaze colors in pottery ware.

The J. B. Owens Pottery company, Zanesville, Ohio, are adding an additional space of 60,000 square feet to their famous plant, and are building six decorating kilns and will probably, after April 1, add two more.

The citizens of Jersey City, N. J., are conjecturing as to where their new pottery is to be located. It has been learned that a pottery company has opened negotiations with an agent relative to the purchase of 14 full-sized lots in the district. The concern in question is located in Ohio and does a large export trade. Should the present negotiations be successfully concluded a plant subsidiary to the one in Ohio, but large enough to furnish employment for about 130 people, men and girls, will be established.

UNION POTTERY

Will Resume Operations Within the Next Few Weeks.

The affairs of the new Union Pottery company are now in such shape that it can be announced with some degree of certainty that the plant will be placed in operation within the next few weeks.

All the ware in hand has been disposed of with the exception of a few odds and ends, and not much time will be required to place the pottery in readiness for operating, although a few changes are contemplated.

13TH ANNIVERSARY

Of the Organization of the Local Christian Church Will be Celebrated Tomorrow.

The thirteenth anniversary of the founding of the Christian church in this city will be observed by the local congregation tomorrow.

The morning service will be given over to the celebration, and Rev. Gorrell will preach a special sermon.

Special music will be rendered and the event commemorated in a fitting manner.

EAST END.

Sprained Her Ankle.

Mrs. John Debee, who works at the Laughlin pottery, while on her way to work yesterday afternoon fell and sprained her ankle. By a painful effort she succeeded in reaching the pottery, but the member became so swollen that she was obliged to send for her husband, who took her home in a buggy.

Entertained Friends.

Mrs. Jacob Arnold entertained a select party last evening in honor of her guests, Mr. and Mrs. McCune, of Marietta, O., who will return to their home today.

Progressive euchre was the game, which lasted until midnight, when a dainty luncheon was served. The affair was greatly enjoyed by all present.

On the Slippery Streets.

It was quite a common thing to take a tumble this morning. One little girl fell under a milk wagon, and a number of ladies remained away from work because of the difficulty in walking.

Returned Home.

Abner Martin returned from Smith's Ferry yesterday, where he had been visiting his cousin, John Laughlin, who is suffering with cancer of the stomach.

Fire Department Called.

The East End fire department was called to the city at about 5:45 a. m. and was accompanied by Firemen Spence, Rhue, Wilson and Cain.

Able to be Out.

Councilman John Arnold was out for the first time in several weeks yesterday. He was strong enough to walk to the barber shop.

Personals.

Mrs. A. Mountford spent the day in Pittsburg.

Among the Sick.

Mrs. Thomas Strain is seriously ill with the grip, which threatens to develop into pneumonia.

Mrs. T. A. Mills, of Dixonville, is very ill with the grip.

Master Lee Crawford is suffering with a bad case of typhoid fever.

Wm. Easterdale is seriously ill with typhoid fever.

Jessie Riley is ill with the measles.

REVIVALISTIC.

A Pathetic Scene at the First Methodist Episcopal Church Last Night.

There was a nice audience present at the First M. E. church last night. Rev. Orcutt, of the Second M. E. church, East End, delivered a brief address, full of pathos and power, along the line of thought of apostolic preaching, the power of the gospel of the Son of God. The address evidently created a deep impression among the audience, and the outlook is that it will bear good fruit.

The pastor, Dr. Clark Crawford, followed with a brief exhortation, and then seekers for salvation were invited to the mercy seat, seven persons responding.

A very pathetic incident was that of a mother and her two little daughters kneeling at the front, pleading for the Master's pardon and forgiveness. The mother was evidently intensely in earnest.

Meeting tonight as usual, at the regularly appointed hour. You have an urgent invitation to be present and take part. "Come, and we will do thee good."

REVISION COMMITTEE.

They Will Again Wrestle With the Question of the Presbyterian Confession of Faith.

Pittsburg, Feb. 9.—The Presbyterian general assembly committee of 16, appointed to agitate for a revision of the confession of faith, will meet again next Tuesday in the city of Washington and continue in session over St. Valentine's day. Dr. William R. Crabbe, president of the Shady Side academy, will leave on Monday for Washington. He is the only member of the committee from Pittsburg. Ex-President Harrison, of Indianapolis; the Rev. Dr. Samuel J. Nicolls, of St. Louis; the Rev. Dr. William McKibbin, of Cincinnati; the Rev. Dr. Herriek Johnson, of Chicago; the Rev. Dr. Solomon P. Sprecher, of Cleveland; Hon. J. E. Parsons, of Detroit, and Judge E. P. C. Humphreys, of Louisville, will join Dr. Crabbe here on Monday evening and proceed to Washington.

The committee feel that as yet they have made no progress, as the tabulation they had made of the votes of the presbyteries has been severely criticised by the leading papers of the church, and they will undertake to make a new one. The committee will attempt at this meeting to frame the action that they think the general assembly should adopt. The Rev. Dr. Charles A. Dickey will preside at the meeting on Tuesday and the Rev. Dr. William Henry Roberts will be the secretary. According to letters he has received in answer to the call he issued for the meeting, there will be a full attendance. It is planned to make this the last meeting of the committee before it meets in Philadelphia immediately previous to the meeting of the general assembly in May. The committee has not settled yet whether or not it will publish its report before the assembly meets, as in either case there will be trouble.

MAY TAKE AN APPEAL.

Alleged That Nuisance Promoters Plan Further Move, if Injunction Is Issued.

Cincinnati, Feb. 9.—With the exception of W. A. Brady, who did not arrive from New York, until last night, all witnesses have been heard on the application for an injunction against the Jeffries-Ruhlin contest planned for next Friday night. Counsel for the Saengerfest Athletic club were not sure last night that Brady would be called. In any event, counsel on both sides agreed to limit their argument so that the case will be closed tonight. Judge Hollister was not expected to reserve his decision longer than next Monday.

Even if an injunction shall be issued against a prizefight, so-called, it is stated that the promoters will claim the right to pull off a boxing contest here Friday night and keep within the bounds of a sparring match in both the 10-round bout between Childs and Martin and the 20-

round contest between Jeffries and Ruhlin. The defendants deny the jurisdiction of the court to restrain such a boxing contest as is allowed under the Ohio statutes, and they insist that they do not intend that there shall be a violation of the law at any stage of the contest. The defendants, on these grounds, expect to appeal the case to a higher court if Judge Hollister shall grant the injunction, and they feel confident that with absolute assurance of a boxing contest only they will be able to carry out their program.

One of the witnesses Friday was Billy Madden, who was on the stand most of the forenoon and all of the afternoon.

BODY IDENTIFIED.

Unknown Victim of Erie Railroad Wreck Was J. T. McDowell.

Greenville, Pa., Feb. 9.—The injured in the Erie wreck Thursday were all resting well. Some were not injured so seriously as first reported.

The body of the Rushville, Ind., man was identified as J. T. Dowell, and the remains were started there.

Major S. R. Jones, of Governor's Island, N. Y., was here to make disposition of the bodies of Sergeant Hart and Private Patterson and send surviving members of the Tenth to their destination.

THANKS FROM THE KING.

Messages to President and House of Representatives on Memorial Tributes.

Washington, Feb. 9.—The British ambassador called at the white house Friday and presented to the president an acknowledgement from King Edward of the appreciation of the president's courtesy in attending the memorial services here and of the feeling of sympathy of the people of the United States.

The speaker laid before the house the following letter from Acting Secretary of State Hill:

"I have the honor to inform you of the receipt of a telegram yesterday from the ambassador to Great Britain, reporting that his majesty's minister for foreign affairs laid before the king the resolutions adopted by the house of representatives relative to the death of Queen Victoria, and that, by the king's command, Lord Lansdowne expresses the royal appreciation of that mark of respect and also the additional respect shown by the house to the memory of the late queen by its immediate adjournment."

OFFICIAL PAPER OF THE CITY

SATURDAY, FEBRUARY 9, 1901.

A GOOD MAN.

He must be, according to his own statement, when we met him this morning at the corner of Fourth and Broadway: "The wicked stand on slippery places; but I can't."

MANY A SLIP.

Last evening, Williams & Co. sent for the writer, gave him a nice order for job work, emphasized the fact that it must be hustled, as they needed it at once. We made immediate preparations to hustle, but will now postpone.

OOM PAUL.

And now the fiat of the physician has gone forth that brave and gallant old Paul Kruger is nearing death's door, the victim of heart failure. He has been a notable figure in the history of the Transvaal, and has won the respect and esteem of the civilized world. He has been loyal and true to the land he loves so well.

BLIND LEADING THE BLIND.

It was on upper Broadway this morning. A fair and winsome maiden was in distress, as she wore no rubbers and was surely out on the slide. A gallant gentleman came to her aid from an adjoining residence, and he too was short on rubbers, with the result that it was a clear case of the blind leading the blind; and the gentleman seemed the more helpless of the two. It was a clear case of united we stand, divided we fall. To make matters worse, a crowd had assembled on the sidewalk, and they gazed the would-be rescuer unmercifully, until he stood and glared at his tormentors like a tiger at bay.

SKULLDUGGERY.

The men who indulge in a personal, malicious battle against their employers, ignoring and setting aside all rules and regulations made for the control and guidance of the union body to which they claim to belong, are not union workmen, by any manner of means. On the contrary, they are unfair and non-union men, of the very worst character and calibre, and they will work untold harm and evil to not only the branch to which they are supposed to belong, but to every union in the city of East Liverpool.

Might is not right; and trickery and chicanery and skullduggery and rascality will reap a harvest which will astonish the contemptible and cowardly creatures who are sowing such seed.

PUBLIC SENTIMENT.

Public sentiment, when guided and directed aright, is a powerful engine, and destruction awaits those who at-

tempt to stem the tide. Pittsburg officials have winked at indulgence in prize fights, and Christian public sentiment, guided by ministers of the gospel who are gallant and fearless in the advocacy of the right, has decided that prize fights in that locality shall cease. And now this same public sentiment should control in Ohio. Our city ministers, men who love God and humanity, should not hesitate a moment in addressing letters to Governor Nash, upholding him in his decision that Jeffries and Ruhlin, professional prize fighters, shall not do battle at Cincinnati, or at any place in the great state of Ohio. Further, every minister in East Liverpool should, on Sunday, February 10, 1901, denounce prize fighting and kindred evils in unmeasured terms. If the officials of any community, including East Liverpool, shall so far forget themselves as to wink at lawlessness and encourage lawbreakers in their infamous work and actions, an outraged public sentiment should call them to account with such force as to convince them that they are not dictators, but merely honored servants of the people, elected to do the will and wish of an intelligent constituency.

A DISGRACE.

There has been printed in this city and distributed, within the last few days, a sheet headed: "East Liverpool Union Labor News." Every advertiser in the sheet is in the whisky or beer business, with the exception of two, one a hotel and the other a plumber. It is an out and out whisky sheet, and bears the label of Typographical Union No. 318, and that of the so-called pressmen's union. We do not believe that the members of No. 318 will sanction the use of their honored label on such a sheet; and we do not believe that our honored Trades and Labor Council will sanction such a sheet. It is a disgrace to sober and upright and temperance workmen, men who believe that the saloon is the workman's

worst enemy, and the worst enemy of our common humanity. The man who put those labels on such a sheet is not a true unionist, and the men who put such a sheet out are not friends of the workmen, or of their wives and children. Typographical Union No. 318 should call the fellow to account who thus disgraces their honored label.

OFFICIAL PAPER OF THE CITY

SATURDAY, FEBRUARY 9, 1901.

A GOOD MAN.

He must be, according to his own statement, when we met him this morning at the corner of Fourth and Broadway: "The wicked stand on slippery places; but I can't."

MANY A SLIP.

Last evening, Williams & Co. sent for the writer, gave him a nice order for job work, emphasized the fact that it must be hustled, as they needed it at once. We made immediate preparations to hustle, but will now postpone.

OOM PAUL.

And now the flat of the physician has gone forth that brave and gallant old Paul Kruger is nearing death's door, the victim of heart failure. He has been a notable figure in the history of the Transvaal, and has won the respect and esteem of the civilized world. He has been loyal and true to the land he loves so well.

BLIND LEADING THE BLIND.

It was on upper Broadway this morning. A fair and winsome maiden was in distress, as she wore no rubbers and was surely out on the slide. A gallant gentleman came to her aid from an adjoining residence, and he too was short on rubbers, with the result that it was a clear case of the blind leading the blind; and the gentleman seemed the more helpless of the two. It was a clear case of united we stand, divided we fall. To make matters worse, a crowd had assembled on the sidewalk, and they gazed the would-be rescuer unmercifully, until he stood and glared at his tormentors like a tiger at bay.

SKULLDUGGERY.

The men who indulge in a personal, malicious battle against their employers, ignoring and setting aside all rules and regulations made for the control and guidance of the union body to which they claim to belong, are not union workmen, by any manner of means. On the contrary, they are unfair and non-union men, of the very worst character and calibre, and they will work untold harm and evil to not only the branch to which they are supposed to belong, but to every union in the city of East Liverpool.

Might is not right; and trickery and chicanery and skullduggery and rascality will reap a harvest which will astonish the contemptible and cowardly creatures who are sowing such seed.

PUBLIC SENTIMENT.

Public sentiment, when guided and directed aright, is a powerful engine, and destruction awaits those who at-

tempt to stem the tide. Pittsburg officials have winked at indulgence in prize fights, and Christian public sentiment, guided by ministers of the gospel who are gallant and fearless in the advocacy of the right, has decided that prize fights in that locality shall cease. And now this same public sentiment should control in Ohio. Our city ministers, men who love God and humanity, should not hesitate a moment in addressing letters to Governor Nash, upholding him in his decision that Jeffries and Ruhlman, professional prize fighters, shall not do battle at Cincinnati, or at any place in the great state of Ohio. Further, every minister in East Liverpool should, on Sunday, February 10, 1901, denounce prize fighting and kindred evils in unmeasured terms. If the officials of any community, including East Liverpool, shall so far forget themselves as to wink at lawlessness and encourage lawbreakers in their infamous work and actions, an outraged public sentiment should call them to account with such force as to convince them that they are not dictators, but merely honored servants of the people, elected to do the will and wish of an intelligent constituency.

A DISGRACE.

There has been printed in this city and distributed, within the last few days, a sheet headed: "East Liverpool Union Labor News." Every advertiser in the sheet is in the whisky or beer business, with the exception of two, one a hotel and the other a plumber. It is an out and out whisky sheet, and bears the label of Typographical Union No. 318, and that of the so-called pressmen's union. We do not believe that the members of No. 318 will sanction the use of their honored label on such a sheet; and we do not believe that our honored Trades and Labor Council will sanction such a sheet. It is a disgrace to sober and upright and temperance workmen, men who believe that the saloon is the workman's

worst enemy, and the worst enemy of our common humanity. The man who put those labels on such a sheet is not a true unionist, and the men who put such a sheet out are not friends of the workingmen, or of their wives and children. Typographical Union No. 318 should call the fellow to account who thus disgraces their honored label.

ANOTHER LOCAL UNION ASKS FOR AN INCREASE.

Brotherhood of Painters, Decorators and Paperhangers of America
Have Formulated New Scale.

CONTRACTORS OBJECT TO PART OF IT.

The way affairs look just at present the bricklayers, plasterers and lathers are not the only people in the city who are out for something in the way of an increase this spring.

At a meeting held some months ago local union No. 165, Brotherhood of Painters, Decorators and Paperhangers of America, it was decided to formulate a new scale of prices. When the task was completed and submitted to the union for its approval the new regulations were adopted unanimously, but when the scale was presented to the contractors or boss painters it met with a great deal of opposition for several reasons.

In the first place the main, or larger contractors, objected to signing the scale owing to the fact that the members of 165 permitted the one-man shop to sign, and in that way enabled them, by reason of the fact that they could contract for work at a very low figure and do the work themselves to shut out the big contractors; whereas if a man who employed any number of painters would be compelled to figure high in order to pay the scale asked by the union, and would consequently be foolhardy to bid against an individual. This certainly placed them at a disadvantage and constituted the first hitch in the proceedings.

The local organization wrestled with the problem for some time, but arrived at no solution, because they could find nothing in their constitution that would permit them to bar out the objectionable contractors.

The above mixup had scarcely been brought rightly before the two sides to the question until one of the contractors objected seriously to another of the provisions of the new scale. It reads this way:

"The bosses shall pay fare one way on all work that requires car service as a means of transportation."

A number of conferences have been held at various times within the past few weeks, but no settlement has to the present been reached.

At a meeting held Thursday night, January 24, the boss painters appointed a committee consisting of Frank Glenn, Emmett Crites and T. O. Timmons, to confer with the union looking to an amicable adjustment of the existing difficulties. They, in company with a number of other contractors met 165 on the following Monday, but no agreement was reached. The men claim it is no more than right that they receive car fare one way, asserting that the spirit of give and take will not hurt either side, and are very firm in their stand.

At the last meeting of the union President E. M. Cross and Harry Finley were selected to interview those of the contractors who had to the present refused to affix their names to the scale, and were engaged in the work yesterday afternoon. To the present, eight of the 14 contractors of the city have signed the agreement, and those who are still holding out will likely come in within the next few days. If they don't the painters claim they will take the matter into Trades Council in order to carry their point.

A prominent member of the union stated yesterday:

"We would not care so much were it not that several of the contractors have considerable out of town work to do in the early spring and if the men are compelled to pay car fare both ways they will have very little left with which to live upon. Especially is this true of the married men. If they are compelled to return home each evening, and it is not convenient

for a man with a large family to remain away nights, they will have spent more than half they earn. And suppose he did stay in some nearby town until the work was completed he would be at the double expense of keeping his family at home and paying board elsewhere. This matter has dwindled down to a question of paying the fares of employees, as the first objection raised by the bosses—that of permitting the individual contractors to sign the scale—is a matter over which we have no control, and a majority of our members hold that those same individual contractors can do us vastly more harm outside of our organization than in. For an example, we will say one of this sort of workmen would get a contract and our organization should begin a fight upon the individual or individuals having the work done, the first thing he would say is: 'Why, I am a contractor, and am dead willing to sign your scale, but it has never been presented to me.' What can we do but allow him to sign. The only way that question can be settled is for the bosses to form an employer's association, fix a table for figuring on work, and if it is not lived up to, and it can be proven that it was violated, then the union is more than willing to protect them by declaring the contractor unfair and refusing to permit the members of our organization to work for him."

FIRM FOUNDATION.

Nothing Can Undermine it in East Liverpool.

People are sometimes slow to recognize true merit and they cannot be blamed, for so many in the past have been humbugged. The experience of hundreds of East Liverpool residents expressed publicity through newspapers and other sources places Doan's Kidney Pills on a firm foundation.

Mr. C. McLean, of 187 Church alley, who is employed in the East Liverpool Pottery company, says: "I had muscular rheumatism for three years in my back and kidneys. It caused much pain and suffering, the last year being the worst. I had a steady aching pain in my kidneys, extreme weakness in the muscles of the back, could not rest at night except lying flat on my back, and there was urinary weakness accompanying it. Although I had many bad attacks and used many different medicines I never obtained any relief. The worst attack I ever had and which completely used me up, occurred just before I used Doan's Kidney Pills. Not having much faith left in medicines I was rather skeptical when I was recommended to try them, but got so bad that I had to get something, so I went for a box to the W. & W. pharmacy. They went direct to the kidneys and acted on the very fountain head of all the trouble, relieving me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

Hospital Meeting.

There will be a meeting of the Hospital Association, in connection with the Board of Trustees, on Monday night, February 11, at 7:30, in the Y. M. C. A. parlor.

THE SERENADE.

THE FRIENDS OF MR. AND MRS. CHARLES WEAVER

Called on Them Last Night Armed With Red Fire and Roman Candles.

Mr. and Mrs. Charles Weaver returned home last evening from their wedding trip and were given a pyrotechnic sendoff at their residence last night.

Just as the concert at the opera house let out a parade, consisting of probably 50 people, marched down Sixth street. Ed Stuckrath acted as captain and each man was bountifully supplied with red fire. It looked as if another campaign had started, but it soon became known that Charlie Weaver was to be serenaded. When the house was reached the red fire brigade sang the beautiful selection, "She Was Happy 'Till She Met You." The song was sung in a much more forcible than elegant manner. Weaver couldn't sleep with all the din and made his appearance. Roman candles galore were discharged and no attention was paid in regard to the direction they were shot. One struck John Rose in the middle of his cranium, and John thinks it may act as a hair restorer.

The gang surrounded Weaver and would not let him return to the house until they had finished their demonstration, which lasted almost an hour.

There was no sleep in the neighborhood until it was all over, and Mr. and Mrs. Weaver probably enjoy the distinction of having the most brilliant celebration ever given in the city.

ANOTHER LOCAL UNION ASKS FOR AN INCREASE.

Brotherhood of Painters, Decorators and Paperhangers of America
Have Formulated New Scale.

CONTRACTORS OBJECT TO PART OF IT.

The way affairs look just at present the bricklayers, plasterers and lathers are not the only people in the city who are out for something in the way of an increase this spring.

At a meeting held some months ago local union No. 165, Brotherhood of Painters, Decorators and Paperhangers of America, it was decided to formulate a new scale of prices. When the task was completed and submitted to the union for its approval the new regulations were adopted unanimously, but when the scale was presented to the contractors or boss painters it met with a great deal of opposition for several reasons.

In the first place the main, or larger contractors, objected to signing the scale owing to the fact that the members of 165 permitted the one-man-shop to sign, and in that way enabled them, by reason of the fact that they could contract for work at a very low figure and do the work themselves to shut out the big contractors; whereas if a man who employed any number of painters would be compelled to figure high in order to pay the scale asked by the union, and would consequently be foolhardy to bid against an individual. This certainly placed them at a disadvantage and constituted the first hitch in the proceedings.

The local organization wrestled with the problem for some time, but arrived at no solution, because they could find nothing in their constitution that would permit them to bar out the objectionable contractors.

The above mixup had scarcely been brought rightly before the two sides to the question until one of the contractors objected seriously to another of the provisions of the new scale. It reads this way:

"The bosses shall pay fare one way on all work that requires car service as a means of transportation."

A number of conferences have been held at various times within the past few weeks, but no settlement has to the present been reached.

At a meeting held Thursday night, January 24, the boss painters appointed a committee consisting of Frank Glenn, Emmett Crites and T. O. Timmons, to confer with the union looking to an amicable adjustment of the existing difficulties. They, in company with a number of other contractors met 165 on the following Monday, but no agreement was reached. The men claim it is no more than right that they receive car fare one way, asserting that the spirit of give and take will not hurt either side, and are very firm in their stand.

At the last meeting of the union President E. M. Cross and Harry Finley were selected to interview those of the contractors who had to the present refused to affix their names to the scale, and were engaged in the work yesterday afternoon. To the present, eight of the 14 contractors of the city have signed the agreement, and those who are still holding out will likely come in within the next few days. If they don't the painters claim they will take the matter into Trades Council in order to carry their point.

A prominent member of the union stated yesterday:

"We would not care so much were it not that several of the contractors have considerable out of town work to do in the early spring and if the men are compelled to pay car fare both ways they will have very little left with which to live upon. Especially is this true of the married men. If they are compelled to return home each evening, and it is not convenient

for a man with a large family to remain away nights, they will have spent more than half they earn. And suppose he did stay in some nearby town until the work was completed he would be at the double expense of keeping his family at home and paying board elsewhere. This matter has dwindled down to a question of paying the fares of employees, as the first objection raised by the bosses—that of permitting the individual contractors to sign the scale—is a matter over which we have no control, and a majority of our members hold that those same individual contractors can do us vastly more harm outside of our organization than in. For an example, we will say one of this sort of workmen would get a contract and our organization should begin a fight upon the individual or individuals having the work done, the first thing he would say is: 'Why, I am a contractor, and am dead willing to sign your scale, but it has never been presented to me.' What can we do but allow him to sign. The only way that question can be settled is for the bosses to form an employer's association, fix a table for figuring on work, and if it is not lived up to, and it can be proven that it was violated, then the union is more than willing to protect them by declaring the contractor unfair and refusing to permit the members of our organization to work for him."

FIRM FOUNDATION.

Nothing Can Undermine it in East Liverpool.

People are sometimes slow to recognize true merit and they cannot be blamed, for so many in the past have been humbugged. The experience of hundreds of East Liverpool residents expressed publicly through newspapers and other sources places Doan's Kidney Pills on a firm foundation.

Mr. C. McLean, of 187 Church alley, who is employed in the East Liverpool Pottery company, says: "I had muscular rheumatism for three years in my back and kidneys. It caused much pain and suffering, the last year being the worst. I had a steady aching pain in my kidneys, extreme weakness in the muscles of the back, could not rest at night except lying flat on my back, and there was urinary weakness accompanying it. Although I had many bad attacks and used many different medicines I never obtained any relief. The worst attack I ever had and which completely used me up, occurred just before I used Doan's Kidney Pills. Not having much faith left in medicines I was rather skeptical when I was recommended to try them, but got so bad that I had to get something, so I went for a box to the W. & W. pharmacy. They went direct to the kidneys and acted on the very fountain head of all the trouble, relieving me in a very short time."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no other.

Hospital Meeting.

There will be a meeting of the Hospital Association, in connection with the Board of Trustees, on Monday night, February 11, at 7:30, in the Y. M. C. A. parlor.

THE SERENADE.

THE FRIENDS OF MR. AND MRS.
CHARLES WEAVER

Called on Them Last Night Armed
With Red Fire and Roman
Candles.

Mr. and Mrs. Charles Weaver returned home last evening from their wedding trip and were given a pyrotechnic sendoff at their residence last night.

Just as the concert at the opera house let out a parade, consisting of probably 50 people, marched down Sixth street. Ed Stuckrath acted as captain and each man was bountifully supplied with red fire. It looked as if another campaign had started, but it soon became known that Charlie Weaver was to be serenaded. When the house was reached the red fire brigade sang the beautiful selection, "She Was Happy 'Till She Met You." The song was sung in a much more forcible than elegant manner. Weaver couldn't sleep with all the din and made his appearance. Roman candles galore were discharged and no attention was paid in regard to the direction they were shot. One struck John Rose in the middle of his cranium, and John thinks it may act as a hair restorer.

The gang surrounded Weaver and would not let him return to the house until they had finished their demonstration, which lasted almost an hour.

There was no sleep in the neighborhood until it was all over, and Mr. and Mrs. Weaver probably enjoy the distinction of having the most brilliant celebration ever given in the city.

BIG SUM FOR CARNEGIE

May Get \$130,000,000 if Sale Goes Through.

MUCH MAY BE IN BONDS OR NOTES.

Gary, in Official Statement, Admitted Negotiations Had Been Begun—Likely if successful, to Be Consummated So as Not to Seriously Disturb Money Market.

New York, Feb. 9.—New developments in connection with the negotiations touching the transfer of the control of the Carnegie Steel company to J. Pierpont Morgan and his associates were first that Mr. Carnegie is to receive \$1,500 for each one thousand dollar share of his stock; second, that minority holders who desire to sell will receive the same terms as those given to Mr. Carnegie; third, that the present stage of the negotiations contemplates the formation of a new corporation, whose bonds will play a large part in the price to be paid Mr. Carnegie, and, fourth, the first public announcement in connection with the pending negotiations of a public character, consisting of a statement by E. H. Gary, president of the Federal Steel company, confirming the news that J. Pierpont Morgan is planning the acquisition of the properties of some of the largest iron and steel companies of the country.

The statement of Judge Gary, however, threw little light upon the details of the great transaction that was in progress, and it was probable that actual official information in this respect will not be obtainable until the deal is really completed. The statement was, however, the subject of much guessing. It apparently confirmed the general impression that all the "Morgan companies" were actively interested in the transaction, and while nothing was said as to the American Steel and Wire company, the fact that counsel for that company attended a conference between President Gary and Mr. Morgan seemed to leave little doubt that the negotiations under way included the steel and wire consolidation. Tell of Magical Results Brought About in Burning, Itching, Bleeding Skin Troubles by Dr. Chase's Ointment.

Dr. Chase's Ointment draws more praise from ministers, physicians and lawyers than any other medicine in the world. It is endorsed by every profession.

Extracts from their Letters.

Rev. W. N. Edwards, Baptist minister, 209 Trinity Place, Buffalo, N. Y., writes:

"For over fifteen years the itching piles have been a source of constant annoyance to me, and frequently, too, the suffering has become intense. At times there was bleeding and the itching and burning was beyond endurance. The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it."

Rev. J. N. Van Natter, Methodist minister, Albion, Wis., writes:

"My wife was terribly afflicted with protruding piles and contemplated a surgical operation when her notice was drawn to Dr. Chase's Ointment, and less than one box effected a cure."

"I then used it for an unsightly and troublesome skin affection, which had baffled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold."

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes:

"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment and did so, finding relief at once. I used three boxes, and am entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Rev. Chas. Fish, Methodist minister, 192 Dunn Avenue, Toronto, Ont., writes:

"Ten years ago eczema began on my ears and spread over my head and hands. During that time I was a great sufferer. I tried many remedies, and some of the best physicians—specialists on skin diseases—treated me. The first box of Dr. Chase's Ointment gave much relief and five boxes completely cured me. I think my cure a marvel, and gladly recommend Dr. Chase's Ointment." Just as good for every form of skin trouble, no matter how long standing. 50 cents a box, all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

dentally, it was hinted that interesting developments might occur at the annual meeting of that corporation on Feb. 19. The "Morgan companies" were not generally supposed to have any interest in the financial side of the new deal, but it was believed that they would be disposed to work in harmony with the Morgan interests at least while the market conditions continued favorable. It appeared not unlikely, however, that the Pennsylvania Steel company might be included in the "community of ownership" plans, a theory that gained some color from the report that Pennsylvania railroad capitalists were to have an interest in the financing of the current deal.

A feature suggesting that Mr. Carnegie had in mind the sale of his company at the time it was chartered in New Jersey is the peculiar clause in the charter providing that the directors of the company may dispose of the property of the company as an entirety. It is this clause in the charter that the men who are at present engaged in financing the deal are taking advantage of.

If, as seemed certain, Mr. Carnegie is to receive \$1,500 for each \$1,000 share of his stock, the transfers in his case alone will be the equivalent of nearly \$130,000,000, inasmuch as the great steel magnate's holdings at present amount to about \$86,000,000. If, as seems probable, the minority holders are to be looked after by Mr. Morgan's syndicate, the financing will involve the equivalent of about \$240,000,000.

This is certainly beyond even Mr. Morgan's ability to provide in cash on a short notice for a single transaction without seriously affecting the money market, and no surprise was therefore felt when Judge Gary made the statement that the actual transfers of cash would be small. Mr. Carnegie is not likely to give up such gilt-edged security as the shares of his own company for anything less attractive, and no surprise was expressed in financial circles when it became known that the financial plan contemplated either the reorganization on a greatly enlarged capital basis of one of the existing steel companies or the formation of an entirely new corporation to hold the controlling stock of the various component companies, and especially the stock acquired by the Carnegie company, all of such stock to constitute the collateral of the new bonds, which shall be issued to Mr. Carnegie and to such other of the present Carnegie company stockholders might wish to sell out with him.

It may be stated on what is practically official authority that the full details of the proposed scheme of financing the big transfer had not been completed up to a late hour Friday afternoon, but the general outlines of the plan, it was stated, do contemplate either the issue of bonds or a system of notes guaranteed in the manner already described.

DIDN'T EFFECT BUSINESS.

Dun's Review So Stated as to Steel Stocks Operations—Figures on Failures.

New York, Feb. 9.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

More seasonable weather in the east has brought up the volume of business in retail lines a little this week, and at the west and south distribution of merchandise is on a satisfactory scale. Prices of staple products show but moderate decline, and quotations of manufactured goods are steady in all directions. Pressure to sell is everywhere conspicuously absent. Jobbers report good orders for spring goods, particularly for the western trade, and the only complaint still comes from the woolen goods market in the east, which has not yet felt the expected stimulus. In this line, however, prices do not decline and agents expect better conditions.

Large operations in the stocks of leading steel companies do not effect the volume of business or the prices of their products as yet, and probably will have no material influence on the future. Quotations will have no material influence in the future. Quotations will depend on the relation of supply and demand, which at present gives an undertone of great strength. This is most evident in bills which cannot be secured at the pool price. While former quotations are nominally in force, it would re-

quire a material advance to secure contracts. Structural forms are also in notably brisk demand, and it is impossible to secure prompt delivery of any finished steel at Pittsburgh. Chicago makers also have orders far ahead and at all leading points the placing of new business is limited to small contracts. Bessemer pig is firm at the recent advance to \$13.50, although no large sales are reported. Cut nails have followed the advancing \$2 per ton, while many other forms are expected to be put on a higher level when producers meet.

Textile industries do not revive appreciably, even the lower temperature failing to infuse life into woollens, aside from better retail dealings.

Manufacturers make small purchases of raw material, showing preference for the cheaper grades, and even then insisting on small concessions. London auction operations be- came less satisfactory as the sale progressed.

Wheat fell below 90 cents, ample snow affording the desired protection in winter wheat states, while the chief support was a better inquiry on foreign account, including moderate purchases for Spain. Atlantic exports for the week, including flour, were 2,874,111 bushels, against 2,247,402 bushels in the week preceding, and 2,115,875 bushels a year ago.

Corn is quiet, maintaining an advance of over 7 cents compared with the same date last year.

Failures for the week were 269 in the United States, against 245 last year, and 35 in Canada, against 33 last year.

DECLINED IN VOLUME.

There Were Not So Many Deals in Stock Market Friday.

New York, Feb. 9.—There was considerable falling off in the volume of dealing in stocks Friday, and the decline would have been much more marked had it not been for the bringing forward into activity of a horde of low-priced stocks of the class denominated among the brokers as "cats and dogs."

The rumor of a projected consolidation in the several railroad lines took on various forms, some of which were authoritatively denied. The gains in this class of railroad stocks ran all the way from 1 to 5 points. St. Joe and Grand Island first gaining 5 and Wabash common 4 1/4. All of the securities of both roads were effected in a less degree, and there were gains besides in the Colorado and Southern stocks, Denver and Rio Grande, Fort Worth and Rio Grande, the Chicago, Indianapolis and Louisville stocks, Peoria and Eastern, the Cleveland, Lorain and Wheeling stocks, the Wheeling and Lake Erie stocks, Texas and Pacific, North America, Kanawha and Michigan and Mexican Central. The rest of the railroad list was singularly sluggish all day, and there was only a handful of stocks that got as much as a point away from Thursday night at any time, and most of the list vibrated narrowly both above and below Thursday night's level.

The steel stocks made a great show of strength just at the opening. Tin plate jumping nearly 3 points, Steel and Wire 2 1/4 and Federal Steel only 1 1/4. None of the advances were fully maintained except Federal Steel, and business in the group fell to comparatively small proportions. Sugar had an advance of 3/4.

There was a continuance of the activity of the bond market Friday, but there were reactions on profit taking at some points. Wabash debenture B's advanced 6 points, and the A's 2%. Total sales, par value, \$8,400,000.

United States bonds were all unchanged on the last call.

Pastor Accepted a Call.

BIG SUM FOR CARNEGIE

May Get \$130,000,000 if Sale Goes Through.

MUCH MAY BE IN BONDS OR NOTES.

Gary, In Official Statement, Admitted Negotiations Had Been Begun—Likely if Successful, to Be Consummated So as Not to Seriously Disturb Money Market.

New York, Feb. 9.—New developments in connection with the negotiations touching the transfer of the control of the Carnegie Steel company to J. Pierpont Morgan and his associates were first that Mr. Carnegie is to receive \$1,500 for each one thousand dollar share of his stock; second, that minority holders, who desire to sell will receive the same terms as those given to Mr. Carnegie; third, that the present stage of the negotiations contemplates the formation of a new corporation, whose bonds will play a large part in the price to be paid Mr. Carnegie, and, fourth, the first public announcement in connection with the pending negotiations of a public character, consisting of a statement by E. H. Gary, president of the Federal Steel company, confirming the news that J. Pierpont Morgan is planning the acquisition of the properties of some of the largest iron and steel companies of the country.

The statement of Judge Gary, however, threw little light upon the details of the great transaction that was in progress, and it was probable that actual official information in this respect will not be obtainable until the deal is really completed. The statement was, however, the subject of much guessing. It apparently confirmed the general impression that all the "Morgan companies" were actively interested in the transaction, and while nothing was said as to the American Steel and Wire company, the fact that counsel for that company attended a conference between President Gary and Mr. Morgan seemed to leave little doubt that the negotiations under way included the steel and wire consolidation.

BIG SUM FOR CARNEGIE

May Get \$130,000,000 if Sale Goes Through.

MUCH MAY BE IN BONDS OR NOTES.

Gary, in Official Statement, Admitted Negotiations Had Been Begun—Likely if Successful, to Be Consummated So as Not to Seriously Disturb Money Market.

New York, Feb. 9.—New developments in connection with the negotiations touching the transfer of the control of the Carnegie Steel company to J. Pierpont Morgan and his associates were first that Mr. Carnegie is to receive \$1,500 for each one thousand dollar share of his stock; second, that minority holders, who desire to sell will receive the same terms as those given to Mr. Carnegie; third, that the present stage of the negotiations contemplates the formation of a new corporation, whose bonds will play a large part in the price to be paid Mr. Carnegie, and, fourth, the first public announcement in connection with the pending negotiations of a public character, consisting of a statement by E. H. Gary, president of the Federal Steel company, confirming the news that J. Pierpont Morgan is planning the acquisition of the properties of some of the largest iron and steel companies of the country.

The statement of Judge Gary, however, threw little light upon the details of the great transaction that was in progress, and it was probable that actual official information in this respect will not be obtainable until the deal is really completed. The statement was, however, the subject of much guessing. It apparently confirmed the general impression that all the "Morgan companies" were actively interested in the transaction, and while nothing was said as to the American Steel and Wire company, the fact that counsel for that company attended a conference between President Gary and Mr. Morgan seemed to leave little doubt that the negotiations under way included the steel and wire consolidation.

Four Ministers

Tell of Magical Results Brought About in Burning, Itching, Bleeding Skin Troubles by Dr. Chase's Ointment.

Dr. Chase's Ointment draws more praise from ministers, physicians and lawyers than any other medicine in the world. It is endorsed by every profession.

Extracts from their Letters.

Rev. W. N. Edwards, Baptist minister, 209 Trinity Place, Buffalo, N. Y., writes: "For over fifteen years the itching piles have been a source of constant annoyance to me, and frequently, too, the suffering has become intense. At times there was bleeding and the itching and burning was beyond endurance. The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it."

Rev. J. N. Van Natter, Methodist minister, Albion, Wis., writes:

"My wife was terribly afflicted with protruding piles and contemplated a surgical operation when her notice was drawn to Dr. Chase's Ointment, and less than one box effected a cure."

"I then used it for an unsightly and troublesome skin affection, which had baffled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold."

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes:

"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment and did so, finding relief at once. I used three boxes, and am entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Rev. Chas. Fish, Methodist minister, 192 Dunn avenue, Toronto, Ont., writes:

"Ten years ago eczema began on my ears and spread over my head and hands. During that time I was a great sufferer. I tried many remedies, and some of the best physicians—specialists on skin diseases—treated me. The first box of Dr. Chase's Ointment gave much relief and five boxes completely cured me. I think my cure a marvel, and gladly recommend Dr. Chase's Ointment."

Just as good for every form of skin trouble, no matter how long standing. 50 cents a box, all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

dentally, it was hinted that interesting developments might occur at the annual meeting of that corporation on Feb. 13. The "Morgan companies" were not generally supposed to have any interest in the financial side of the new deal, but it was believed that they would be disposed to work in harmony with the Morgan interests at least while the market conditions continued favorable. It appeared not unlikely, however, that the Pennsylvania Steel company might be included in the "community of ownership" plans, a theory that gained some color from the report that Pennsylvania railroad capitalists were to have an interest in the financing of the current deal.

A feature suggesting that Mr. Carnegie had in mind the sale of his company at the time it was chartered in New Jersey is the peculiar clause in the charter providing that the directors of the company may dispose of the property of the company as an entirety. It is this clause in the charter that the men who are at present engaged in financing the deal are taking advantage of.

If, as seemed certain, Mr. Carnegie is to receive \$1,500 for each \$1,000 share of his stock, the transfers in his case alone will be the equivalent of nearly \$130,000,000, inasmuch as the great steel magnate's holdings at present amount to about \$86,000,000. If, as seems probable, the minority holders are to be looked after by Mr. Morgan's syndicate, the financing will involve the equivalent of about \$240,000,000.

This is certainly beyond even Mr. Morgan's ability to provide in cash on a short notice for a single transaction without seriously affecting the money market, and no surprise was therefore felt when Judge Gary made the statement that the actual transfers of cash would be small. Mr. Carnegie is not likely to give up such gilt-edged security as the shares of his own company for anything less attractive, and no surprise was expressed in financial circles when it became known that the financial plan contemplated either the reorganization on a greatly enlarged capital basis of one of the existing steel companies or the formation of an entirely new corporation to hold the controlling stock of the various component companies, and especially the stock acquired by the Carnegie company, all of such stock to constitute the collateral of the new bonds, which shall be issued to Mr. Carnegie and to such other of the present Carnegie company stockholders might wish to sell out with him.

It may be stated on what is practically official authority that the full details of the proposed scheme of financing the big transfer had not been completed up to a late hour Friday afternoon, but the general outlines of the plan, it was stated, do contemplate either the issue of bonds or a system of notes guaranteed in the manner already described.

DIDN'T EFFECT BUSINESS.

Dun's Review So Stated as to Steel Stocks Operations—Figures on Failures.

New York, Feb. 9.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

More seasonable weather in the east has brought up the volume of business in retail lines a little this week, and at the west and south distribution of merchandise is on a satisfactory scale. Prices of staple products show but moderate decline, and quotations of manufactured goods are steady in all directions. Pressure to sell is everywhere conspicuously absent. Jobbers report good orders for spring goods, particularly for the western trade, and the only complaint still comes from the woolen goods market in the east, which has not yet felt the expected stimulus. In this line, however, prices do not decline and agents expect better conditions.

Large operations in the stocks of leading steel companies do not effect the volume of business or the prices of their products as yet, and probably will have no material influence on the future. Quotations will have no material influence in the future. Quotations will depend on the relation of supply and demand, which at present gives an undertone of great strength. This is most evident in bills which cannot be secured at the pool price. While former quotations are nominally in force, it would re-

quire a material advance to secure contracts. Structural forms are also in notably brisk demand, and it is impossible to secure prompt delivery of any finished steel at Pittsburgh. Chicago makers also have orders far ahead and at all leading points the placing of new business is limited to small contracts. Bessemer pig is firm at the recent advance to \$13.50, although no large sales are reported. Cut nails have followed the advance, \$2 per ton, while many other forms are expected to be put on a higher level when producers meet.

Textile industries do not revive appreciably, even the lower temperature failing to infuse life into woollens, aside from better retail dealings.

Manufacturers make small purchases of raw material, showing preference for the cheaper grades, and even then insisting on small concessions. London auction operations became less satisfactory as the sale progressed.

Wheat fell below 90 cents, ample snow affording the desired protection in winter wheat states, while the chief support was a better inquiry on foreign account, including moderate purchases for Spain. Atlantic exports for the week, including flour, were 2,874,111 bushels, against 2,247,402 bushels in the week preceding, and 2,115,875 bushels a year ago.

Corn is quiet, maintaining an advance of over 7 cents compared with the same date last year.

Failures for the week were 269 in the United States, against 245 last year, and 35 in Canada, against 33 last year.

DECLINED IN VOLUME.

There Were Not So Many Deals in Stock Market Friday.

New York, Feb. 9.—There was considerable falling off in the volume of dealing in stocks Friday, and the decline would have been much more marked had it not been for the bringing forward into activity of a horde of low-priced stocks of the class denominated among the brokers as "cats and dogs."

The rumor of a projected consolidation in the several railroad lines took on various forms, some of which were authoritatively denied. The gains in this class of railroad stocks ran all the way from 1 to 5 points. St. Joe and Grand Island first gaining 5 and Wabash common 4%. All of the securities of both roads were effected in a less degree, and there were gains besides in the Colorado and Southern stocks, Denver and Rio Grande, Fort Worth and Rio Grande, the Chicago, Indianapolis and Louisville stocks, Peoria and Eastern, the Cleveland, Lorain and Wheeling stocks, the Wheeling and Lake Erie stocks, Texas and Pacific, North America, Kanawha and Michigan and Mexican Central. The rest of the railroad list was singularly sluggish all day, and there was only a handful of stocks that got as much as a point away from Thursday night at any time, and most of the list vibrated narrowly both above and below Thursday night's level.

The steel stocks made a great show of strength just at the opening. Tin plate jumping nearly 3 points, Steel and Wire 2½ and Federal Steel only 1½. None of the advances were fully maintained except Federal Steel, and business in the group fell to comparatively small proportions. Sugar had an advance of 3¼.

There was a continuance of the activity of the bond market Friday, but there were reactions on profit taking at some points. Wabash debenture B's advanced 6 points, and the A's 2½. Total sales, par value, \$8,400,000.

United States bonds were all unchanged on the last call.

Pastor Accepted a Call.

Pittsburg, Feb. 9.—Rev. Dr. Robert Leard Smith, pastor of the Presbyterian church of Freedom and Concord, accepted his call to the Presbyterian church at Ligonier, where he will begin his work April 1. Dr. Smith is a brother of James W. and Samuel Smith, of this city.

Charles Cooper Dead.

Mt. Vernon, O., Feb. 9.—Charles Cooper, one of the oldest and best known iron manufacturers in Ohio, died, aged 92 years. He built the first locomotive west of the Allegheny mountains and founded the Cooper-Corliss Engine works here.

CONDITION OF TRADE.

More Visitors Here During January This Year Than for Several Preceding Seasons.

Crockery Journal.

Good activity continues in the pottery trade at East Liverpool. A large number of buyers were present the past week. The number of visiting buyers during January this year has

been greater than that of several preceding seasons. It is true all have not placed large orders, but liberal buying has been done by many, and all have left more or less demands. Some came just to look over the new lines and offerings for this year, made unimportant purchases and will buy later, either through mail or traveling salesmen.

Orders are beginning to come in from traveling men, and last week a good sprinkling of them were received

by various potteries. The salesmen who have been home since January all expect to get out the present week, except those of the Edwin Knowles China company. This new plant will not have its samples ready till after the middle of this month.

The first month of 1901 has shown unusual activity, and the potters enter February with a good current trade, and with the highest hopes for a year of prosperity that will surpass those of the closing century.

SOUTH SIDE.

Will Oppose It.

The move toward incorporation here does not seem to meet with the degree of approval that was expected. A number of people, including several business men, are very positive that the move will not succeed and a quiet but determined campaign is on foot to defeat the measure between now and election day. The fact that incorporation would mean increased taxes, and the probability that saloons would be licensed should the measure succeed are the strongest arguments being used against it.

Nearly all the large property holders favor immediate incorporation, and argue that the public improvements which would result, and the establishment of municipal government would more than compensate for the extra taxation.

The result can only be determined by the election, but public sentiment at present would seem to indicate the measure's defeat.

Fulton Entered Suit.

George Fulton has entered suit against ex-Constable R. A. Allison in Justice Bradley's court at New Cumberland for \$250 damages, claimed by plaintiff on account of alleged unlawful detention of personal property, consisting of a team of horses held under an attachment proceeding by the Chester Grocery company for an unpaid bill.

The case will be heard on the 14th, and the outcome is awaited with interest.

New Business Block.

Contractor McDonald has just been furnished with plans for the erection of a two-story business room and residence to be built by Richard Banfield.

The new structure will occupy a lot adjoining Banfield's present property, and will be a modern structure. Work will be commenced in the early spring.

A Serious Accident.

George Wycoff, while felling a tree near here yesterday, was struck on the head by a falling limb and knocked about 20 feet down a steep hillside. He received a scalp wound about two and a half inches long and was badly shaken up, but no bones were broken. Dr. Lewis sewed up and dressed the wound and the young man is improving rapidly.

He Had a Scheme.

A Southside citizen who was unable to get down the hill to his stable in the ordinary way this morning procured a small board and slid down, striking the building with force enough to give him a good jolting. A number of other residents unwillingly tried similar experiments without the use of a board.

School Will be Reopened.

The school at Congo, which has been without a teacher for more than a month, will be reopened Monday, the trustees having secured the services of a resident married lady, who will finish the term.

A Sudden Death.

Mrs. John Owens, who was buried from Oakland church, Butler district, last Thursday, died with grip after an illness of only three days. This was the quickest death of grip ever known in the county.

Southside Personals.

G. A. Arner and J. B. Pierce will spend Monday in Pittsburg.

Miss Dollie Jackson is suffering with appendicitis.

Howard Piper is very ill with typhoid fever.

Ford Leatherberry, a stock dealer of Somerset, O., was in the Southside on business yesterday.

SOUTH SIDE.

Will Oppose It.

The move toward incorporation here does not seem to meet with the degree of approval that was expected. A number of people, including several business men, are very positive that the move will not succeed and a quiet but determined campaign is on foot to defeat the measure between now and election day. The fact that incorporation would mean increased taxes, and the probability that saloons would be licensed should the measure succeed are the strongest arguments being used against it.

Nearly all the large property holders favor immediate incorporation, and argue that the public improvements which would result, and the establishment of municipal government would more than compensate for the extra taxation.

The result can only be determined by the election, but public sentiment at present would seem to indicate the measure's defeat.

Fulton Entered Suit.

George Fulton has entered suit against ex-Constable R. A. Allison in Justice Bradley's court at New Cumberland for \$250 damages, claimed by plaintiff on account of alleged unlawful detention of personal property, consisting of a team of horses held under an attachment proceeding by the Chester Grocery company for an unpaid bill.

The case will be heard on the 14th, and the outcome is awaited with interest.

New Business Block.

Contractor McDonald has just been furnished with plans for the erection of a two-story business room and residence to be built by Richard Banfield.

The new structure will occupy a lot adjoining Banfield's present property, and will be a modern structure. Work will be commenced in the early spring.

A Serious Accident.

George Wycoff, while felling a tree near here yesterday, was struck on the head by a falling limb and knocked about 20 feet down a steep hillside. He received a scalp wound about two and a half inches long and was badly shaken up, but no bones were broken. Dr. Lewis sewed up and dressed the wound and the young man is improving rapidly.

He Had a Scheme.

A Southside citizen who was unable to get down the hill to his stable in the ordinary way this morning procured a small board and slid down, striking the building with force enough to give him a good jolting. A number of other residents unwillingly tried similar experiments without the use of a board.

School Will be Reopened.

The school at Congo, which has been without a teacher for more than a month, will be reopened Monday, the trustees having secured the services of a resident married lady, who will finish the term.

A Sudden Death.

Mrs. John Owens, who was buried from Oakland church, Butler district, last Thursday, died with grip after an illness of only three days. This was the quickest death of grip ever known in the county.

Southside Personals.

G. A. Arner and J. B. Pierce will spend Monday in Pittsburg.

Miss Dollie Jackson is suffering with appendicitis.

Howard Piper is very ill with typhoid fever.

Ford Leatherberry, a stock dealer of Somerset, O., was in the Southside on business yesterday.

CONDITION OF TRADE.

More Visitors Here During January This Year Than for Several Preceding Seasons.

Crockery Journal.

Good activity continues in the pottery trade at East Liverpool. A large number of buyers were present the past week. The number of visiting buyers during January this year has

been greater than that of several preceding seasons. It is true all have not placed large orders, but liberal buying has been done by many, and all have left more or less demands. Some came just to look over the new lines and offerings for this year, made unimportant purchases and will buy later, either through mail or traveling salesmen.

Orders are beginning to come in from traveling men, and last week a good sprinkling of them were received

by various potteries. The salesmen who have been home since January all expect to get out the present week, except those of the Edwin Knowles China company. This new plant will not have its samples ready till after the middle of this month.

The first month of 1901 has shown unusual activity, and the potters enter February with a good current trade, and with the highest hopes for a year of prosperity that will surpass those of the closing century.

EAST LIVERPOOL, O., SATURDAY, FEBRUARY 9, 1901.

WILLIAMS' SAW MILL TOTALLY DESTROYED.

This City Was Visited by a Most Disastrous Fire at an Early Hour
This Morning,

LOSS WILL AMOUNT TO ALMOST \$13,000

While the Insurance Will Not Foot Up Over \$6,000 at the Very
Outside.

A TYPEWRITER THE ONLY THING SAVED

The most destructive fire in many years from the standpoint of loss to the owner of the property occurred at 5:30 this morning.

The fire broke out at a point about the center of the Williams saw mill, at the foot of Second street, near the spot where the gas engines are located, and in a very few minutes the interior of the mill was enveloped in flames.

Those who were on the ground early state that it looked as though nothing could save the building, there being such a large quantity of inflammable material within the mill. Their theory proved correct, as not a thing was saved with the exception of a typewriter and some articles of wearing apparel which were in the office.

An alarm was sent in from box 34, and although the department had some difficulty in getting down the hill owing to the ice, the horses attached to the hook and ladder wagon falling several times before the bottom of the hill was reached, the apparatus reached the scene of the conflagration in good time.

Satisfied that the mill itself could not be saved the department turned their attention to the adjacent buildings. A building just opposite the burning building on the north side of the railroad track was in great danger, and the water pressure was so light that the stream directed upon it hardly reached half way to the roof. This was due to the main at that point being so much smaller than the ordinary main.

The East End department reached the city at about 6 o'clock and immediately commenced the task of saving the oil room, which is situated directly to the east of the main building, and contained 150 barrels of crude oil. Few people in the vicinity knew the danger of the fire spreading to this building, as it is safe to say they would have stopped farther away, but to the efficient work of the department can be attributed the salvation of this part of the property.

Mr. Williams' loss will be very heavy, reaching almost \$13,000, with between \$4,000 and \$5,000 insurance. This is divided between two companies, and Mr. Williams was unable to tell when seen this morning just how much it would amount to. A large quantity of green lumber, which was piled about the building, was saved, together with the warehouse.

In a New Position.

James Moore, superintendent of the packing department of the Akron, O., China company, has left there to accept a similar position with the Taylor, Lee & Smith Co., at Chester, W. Va. T. J. Mumford succeeds Mr. Moore at the Akron pottery.

—A. C. McQuilkin returned from New Brighton yesterday, where he had been attending a funeral.

JOHN S. GOODWIN

WAS TAKEN FOR ALFRED VANDERBILT AT ALBANY.

The Local Pottery Salesman Created a Furore in a Store at New York City.

The Crockery Journal tells a good story of how John S. Goodwin, of this city, unintentionally created some excitement at Albany several days ago.

The story is as follows:

"As everybody knows, John S. Goodwin, of East Liverpool, is always well dressed and carries himself with an air of distinction. Last Thursday he and F. W. Moore were in Albany. It chanced that Alfred G. Vanderbilt and his wife were also there. Goodwin and Moore called on J. G. Meyers in the course of business, and were passing through the store looking for Ernest Wade—Goodwin with the lapels of his \$500 seal lined overcoat thrown back, walking with slow and stately step—when one of the salesgirls exclaimed: "There he goes! There's Vanderbilt!"

"Instantly the word was passed along, not only by the salespeople, but by customers as well, and there was a stampede to see the famous son of a famous sire. Mr. Goodwin was quite unconscious of the furore he was creating. Just then Wade came up with a "Hello, John! How's crockery?" and shook him warmly by the hand. Then the crowd melted away.

"Goodwin paid for the dinners that night, and said he was glad to do it."

THE SCOTT POTTERY

WAS SOLD AT PUBLIC AUCTION LAST WEEK.

The End of a Long And Bitter Fight Between Members of Cincinnati Pottery Firm.

The George Scott Sons' pottery, in Cincinnati, was sold last week at public auction by order of court. The sheriff sold the real estate in the partition proceedings for \$15,196.67, and R. J. Waite, receiver of the firm, sold the firm assets for \$3,100. The cottages in Sargent street sold for \$1,400, making the total sales amount to \$19,696.67. S. A. Waite and G. E. Scott bought the pottery real estate and S. A. Waite the firm assets. The business will be opened at once, and under a new name. Mr. Scott does not anticipate any trouble in settling with his creditors. This will terminate a long and bitter fight.

Mike Fennell left today for his home in Wheeling. He was called here by the serious illness of his mother, who lives on lower Fourth street. The lady is somewhat improved.

HAVE REACHED AN AGREEMENT

The Case of David Boyce Vs. S. C. Williams Has Been Settled.

SECOND STREET GAS WELL

Was the Bone of Contention As Williams Threatened to Shut Off The

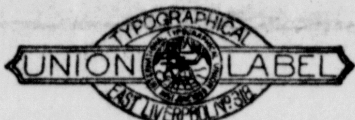

SUPPLY OF THE PLAINTIFF'S

Lisbon, Feb. 9.—(Special.)—A satisfactory agreement without trial has been reached in the case of David Boyce et al. against S. C. Williams. By the terms of the agreement the plaintiff may continue to use the natural gas emanating from the well now drilled upon the premises in East Liv-

erpool. They may also have the right of egress and ingress into the same and maintain their pipe line until such time, as in the opinion of the plaintiffs, that it shall no longer be profitable. At this time it is decreed that the interests of the plaintiffs in the property shall cease entirely.

In November, 1886, W. C. Morrow leased two lots fronting on Second street to Boyce for the purposes of drilling for oil and gas and a paying well was found. Three years later Williams purchased the land, it is claimed, knowing the rights of the plaintiffs by reason of his lease. In violation of the rights of the plaintiffs, it is alleged, that the defendant threatened to shut off the gas supply and so infringe on the plaintiff's rights.

Judge Hole this morning ordered that Boyce shall have the right to remove the buildings, derrick, tools, etc., and that neither party are to drill any more wells on the land.

NEW BRAKE

INVENTED BY A LOCAL MAN TO BE TESTED.

It Will be Completed Today And Will be Tried Next Week.

The patent brake invented by an East Liverpool man and being turned out at a local machine shop, will be completed today.

Some delay in its completion was caused by a piece of the apparatus,

which was made in Pittsburg, breaking, and it was necessary to make a new one. This will be done today, and it is likely a test will be made early next week.

The new appliance is made to attach to the front end of the car near the controller, and the part of the machine which does the work is suspended between the rails in the shape of a huge anchor.

The people interested in the invention are confident that it will be a success, and are anxiously waiting for the time when a test will be made.

ELECTED OFFICERS.

OAK GROVE PARK COMPANY MET LAST NIGHT.

Constitution and By-Laws for the New Organization have Been Adopted.

The Oak Grove Park company, which has purchased Spring Grove camp ground, met last evening and elected the following officers:

President—Samuel Stevenson.

Vice President—Hamlin Barnes.

Treasurer—T. R. Andrews.

Secretary—Sherman T. Herbert.

Constitution and by-laws were adopted and a committee appointed to fix ground rent for cottage owners who are not stockholders.

SLIPPERY INCIDENTS.

A Few Accidents Which Occurred As a Result of the Ice This Morning.

James Isett, son of Daniel Isett, of High street, East End, fell and broke his collar bone while attempting to descend an icy path this morning.

Mrs. Edward Spivey, of Calcutta road, fell and seriously injured her spine this morning. She was also injured internally and complications may result.

Jerry Dennis fell and dislocated his ankle late yesterday evening.

INJURED HIS EYE.

James V. Pope, the Well-Known Engraver, Met With a Very Painful Accident.

James V. Pope, the well known engraver, is now a firm believer in the adage "that misfortune never comes singly." He was just recovering from a severe illness and was working on a toy for his boy when a stick flew up and struck him in the eye, almost destroying the sight of the optic.

A physician was called and attended to the wound.

IN A NEW POSITION.

Timmy Stapleton Has Accepted a Position With W. H. Gass.

The popular young shoe salesman, Mr. Timothy Stapleton, has accepted a position with W. H. Gass and will enter on his duties next Monday morning.

Timmy will be glad to meet his old friends and acquaintances in his new quarters.

Deroads Got a Verdict.

Lisbon, Feb. 9.—(Special.)—Chas. L. Deroads, of Franklin Square, was given a verdict last night for \$40 damages against Michael Moran. Deroads is about 25 years of age and claimed that Moran, who is about, 65, gave him a good beating on the public road in Salem township, thereby injuring him in his reputation about the town as a paper hanger and painter. He wanted judgment for \$5,500, but is evidently satisfied, as there has been no application for a new trial. The jury was out until 11 o'clock.

THE JURYMEN GET \$2 PER DAY

When They Hear Oleomargarine Cases and the Prosecuting Attorney Asked For The

LAW ON THE SUBJECT

Meanwhile the Jurymen Who Heard the Case Here Are Still Waiting For

WHAT IS COMING TO THEM

When the case against Frank Kratz for selling impure oleomargarine was disposed of and Judge Fawcett was about to leave this city for his home in Canton, he informed Justice McLane, before whom the case was tried, that under the law governing the food and dairy department the jury in this case were entitled to \$2 per day for their services.

Accordingly the justice made out the amount in that manner and submitted it to the county auditor for payment. Prosecuting Attorney Brooks refused to allow the bill to go through, and stated he would not o. k. the same until the magistrate could show the law on the subject.

Justice McLane at once wrote Judge Fawcett and this morning received a communication from him containing the information that he had corresponded with the department at Columbus, who had stated both the food and dairy laws and the regulations governing the offense of cruelty to animals, granted jurors \$2 per day. They also cited two instances, one at Cincinnati and the other in Cuyahoga county, wherein the authorities were compelled to allow the bill.

This ruling is doubtless based upon the fact that in cases of this character the decision of a jury or magistrate is final, and holds as good as any higher court ruling.

ENTRIES CLOSED.

All the Candidates for County Office Have Been Announced.

Lisbon, Feb. 9.—(Special.)—The entries for the coming Republican primaries closed today. Kannal, of East Palestine, and Farrell, of Lisbon, prominently mentioned as candidates for commissioner, failed to enter, as did U. V. Gaskill for infirmity director.

All the other candidates for the various offices announce that they are in the fight to a finish.

Court Has Adjourned.

Lisbon, Feb. 9.—(Special.)—Court adjourned until Tuesday at 1 o'clock, when there will be a short session, owing to the fact that circuit court will convene on Tuesday for a session that will last a week.

Local union No. 9 met in regular session last evening at their hall in the Thompson building and transacted routine business. The matter of the adoption of new by-laws was up for consideration, and after the consideration of those submitted by the committee they were adopted.

The largest single shipment ever made by express from this city was sent out day before yesterday. It amounted to over 4,400 pounds and cost about \$200.

HELEN GOULD'S Y. M. C. A.

Millionairess Gives Naval Branch of Brooklyn Finest Y. M. C. A. Building In the World.

Copyright 1901 The Christian Herald, N. Y.

What will undoubtedly be the finest Young Men's Christian Association building in the world, is now being erected in Brooklyn by Miss Helen Gould as a memorial to her parents. The structure will cost \$300,000, and will be a naval branch of the Y. M. C. A. It is within three blocks of the navy yard. The present membership of the Naval Y. M. C. A. numbers over 500. It was organized less than two years ago at 167 Sands street, with 45 members. Work among the men of the naval service was at once begun. Clean beds, a good cuisine and well furnished parlors, supplied with everything for the comfort of the men were the attractions offered. The result was a steady increasing patronage, until at last the old quarters had to be torn down to make way for the new and more commodious building. The basement of this new building will contain bowling alleys, plunge baths, a well equipped gymnasium, and nearly 500 lockers. On the ground floor will be the secretary's office, a reading room and parlor and a large restaurant. The upper floors will have 200 bed rooms. These rooms will all be fully furnished by the Women's auxiliary, and anyone, on payment of \$50, which sum will be expended for the furnishing of a bed room, can have the privilege of naming any one of them as the donor may desire. The top floor will have an auditorium where entertainments will be held at frequent intervals. A special feature of this magnificent new building will be the roof garden. The entire roof will be made into an open-air theater, where the sailor and his friends may enjoy the cool sea breezes while listening to splendid programs of amusement.

The branch has been accomplishing wonders in leading a great many sailors and marines to acknowledge God's love and power. It acts as a central pivot, where "Jack" may turn for advice and help of whatever character he should desire. An average of \$600 is received monthly by Secretary Frank L. Smith, which members forward to him from all parts of the world, to be applied as they direct; some times he is to send the money to their mothers, wives or relatives; again, he is to deposit it in a savings institution.

The Naval Branch does not stay at home, so to speak. It makes itself felt in the navy yard, at the hospital, in the marine barracks and on board visiting ships. The latter carry away packages of magazines and similar literature, to beguile hours at sea or on remote stations. While lying at the yard sick boys are visited and commissions executed for those who are disabled.

The success of the Brooklyn Naval branch has been so pronounced that the international committee of the Young Men's Christian associations have recently organized other branches at naval stations at Guam, Ladrones islands; Cavite arsenal, Philippine islands; San Juan, Porto Rico, and at Havana, Cuba. The privileges are open to all members at these stations, as well as at some other 20 associations in our seaport cities. Branches have been formed, too, on board a number of Uncle Sam's ships.

Temperance branches have also been organized on many ships, and each member signs a pledge to wholly abstain from all intoxicating liquors, as a beverage, during the period of his service in the navy. No fee is charged for membership in this league, and each member is given a neat silver-oxidized pin, which is worn by him constantly. For each year of faithful membership and upholding of the pledge, handsome insignia will be conferred. The navy department at Wash-

ington will further recognize this movement by adding to the present enlistment blank a column headed "Total Abstinence," to be marked "Yes" or "No" each quarter, by the commanding officer of the ship, to the best of his knowledge and belief.

POTTERY NOTES.

SOME ITEMS IN REGARD TO PLANTS OF THE COUNTRY.

A Movement is on Foot to Erect a Monument to the Memory of J. Hart Brewer.

China, Glass and Pottery Review.

A movement is on foot to have the manufacturing potters of the country erect a monument to the memory of John Hart Brewer for his work in the development of pottery.

Bell Bros., Findlay, state that since the fire they are in better shape than ever before. They have built a new new decorating kiln and will turn out some fine effects in decalomanie and underglaze. They have 42 new designs ready for 1901.

A number of inquiries have been received as to the kind of ware the Cambridge Art Pottery company, of Cambridge, Ohio, are going to manufacture. Their line will embrace faience vases, jardiniere, pedestals, clay specialties, glazed and underglaze colors in pottery ware.

The J. B. Owens Pottery company, Zanesville, Ohio, are adding an additional space of 60,000 square feet to their famous plant, and are building six decorating kilns and will probably, after April 1, add two more.

The citizens of Jersey City, N. J., are conjecturing as to where their new pottery is to be located. It has been learned that a pottery company has opened negotiations with an agent relative to the purchase of 14 full-sized lots in the district. The concern in question is located in Ohio and does a large export trade. Should the present negotiations be successfully concluded a plant subsidiary to the one in Ohio, but large enough to furnish employment for about 130 people, men and girls, will be established.

UNION POTTERY

Will Resume Operations Within the Next Few Weeks.

The affairs of the new Union Pottery company are now in such shape that it can be announced with some degree of certainty that the plant will be placed in operation within the next few weeks.

All the ware in hand has been disposed of with the exception of a few odds and ends, and not much time will be required to place the pottery in readiness for operating, although a few changes are contemplated.

13TH ANNIVERSARY

Of the Organization of the Local Christian Church Will be Celebrated Tomorrow.

The thirteenth anniversary of the founding of the Christian church in this city will be observed by the local congregation tomorrow.

The morning service will be given over to the celebration, and Rev. Gorell will preach a special sermon.

Special music will be rendered and the event commemorated in a fitting manner.

EAST END.

Sprained Her Ankle.

Mrs. John Debee, who works at the Laughlin pottery, while on her way to work yesterday afternoon fell and sprained her ankle. By a painful effort she succeeded in reaching the pottery, but the member became so swollen that she was obliged to send for her husband, who took her home in a buggy.

Entertained Friends.

Mrs. Jacob Arnold entertained a select party last evening in honor of her guests, Mr. and Mrs. McCune, of Marietta, O., who will return to their home today.

Progressive euchre was the game, which lasted until midnight, when a dainty luncheon was served. The affair was greatly enjoyed by all present.

On the Slippery Streets.

It was quite a common thing to take a tumble this morning. One little girl fell under a milk wagon, and a number of ladies remained away from work because of the difficulty in walking.

Returned Home.

Abner Martin returned from Smith's Ferry yesterday, where he had been visiting his cousin, John Laughlin, who is suffering with cancer of the stomach.

Fire Department Called.

The East End fire department was called to the city at about 5:45 a. m. and was accompanied by Firemen Spence, Rhue, Wilson and Cain.

Able to be Out.

Councilman John Arnold was out for the first time in several weeks yesterday. He was strong enough to walk to the barber shop.

Personals.

Mrs. A. Mountford spent the day in Pittsburg.

Among the Sick.

Mrs. Thomas Strain is seriously ill with the grip, which threatens to develop into pneumonia.

Mrs. T. A. Mills, of Dixonville, is very ill with the grip.

Master Lee Crawford is suffering with a bad case of typhoid fever.

Wm. Easterdale is seriously ill with typhoid fever.

Jessie Riley is ill with the measles.

REVIVALISTIC.

A Pathetic Scene at the First Methodist Episcopal Church Last Night.

There was a nice audience present at the First M. E. church last night. Rev. Orcutt, of the Second M. E. church, East End, delivered a brief address, full of pathos and power, along the line of thought of apostolic preaching, the power of the gospel of the Son of God. The address evidently created a deep impression among the audience, and the outlook is that it will bear good fruit.

The pastor, Dr. Clark Crawford, followed with a brief exhortation, and then seekers for salvation were invited to the mercy seat, seven persons responding.

A very pathetic incident was that of a mother and her two little daughters kneeling at the front, pleading for the Master's pardon and forgiveness. The mother was evidently intensely in earnest.

Meeting tonight as usual, at the regularly appointed hour. You have an urgent invitation to be present and take part. "Come, and we will do thee good."

Woman's Horror

Modest women dread to consult a doctor about diseases peculiar to their sex. They have a horror of private examinations and surgical operations. For this reason treatment of dangerous derangements is neglected. But the Wine of Cardui treatment, which can be adopted at home without the knowledge of any one but the patient herself, is now coming into general use. Women who take Wine of Cardui do not have to submit to a physician's local examination nor to a surgical operation. Wine of Cardui cures in the privacy of the home. No publicity, no cutting and torture and no physician or examination, while Wine of Cardui is quietly building up and strengthening the female organs. Menstruation is regulated, the drains of leucorrhoea stopped and the fallen womb restored to its place. The terrible pains which rack the body are but results of the ailments, which yield so readily to the soothing properties of Wine of Cardui. The medicine that cured Miss Garlen will certainly help you.

Wine of Cardui

Rockford, Tenn., Aug. 16, 1899.
I have suffered from womb trouble for five years. Last spring a year ago I was bedfast for six months. I paid \$52 to one doctor, and he said he had done all he could for me. I had about given up, but called another doctor, who said I would have to have surgical treatment. I decided I might as well die a natural death as that. I happened to get hold of a Ladies' Birthday Almanac, and decided to try your treatment. In nine days after I commenced taking Wine of Cardui and Black-Draught I could walk across my room, and in three weeks I made myself a dress. This was after my neighbors, and even my brothers and sisters, said I would never be any better. I am now in good health.
Miss S. E. GARLEN.

JUBILEE SINGERS.

The Concert at the Grand Last Night
Pleased a Large
Audience.

The management of the High School
lecture course deserve credit for book-
ing such a stellar attraction as the
Slayton Jubilee singers, who appeared
in this city last night.

Every number on the lengthy pro-
gram was heartily encored and the
performers were all artists. The
large audience enjoyed the concert
from start to finish.

Free Site for Pottery Company.

L. C. Haler, a wealthy resident of
McKeesport, Pa., has offered the East
Palestine Pottery company of East
Palestine, O., a site in Versailles town-
ship free if the company will locate
there.

He is the owner of several acres of
valuable land and states the company
can have all the ground necessary,
which is located on a 20-vein of clay.

Mr. Haler owns several natural gas
wells and offers the company free fuel
for two years.

REVISION COMMITTEE.

They Will Again Wrestle With the Ques-
tion of the Presbyterian Con-
fession of Faith.

Pittsburg, Feb. 9.—The Presbyterian
general assembly committee of 16, ap-
pointed to agitate for a revision of
the confession of faith, will meet
again next Tuesday in the city of
Washington and continue in session
over St. Valentine's day. Dr. William
R. Crabbe, president of the Shady
Side academy, will leave on Monday
for Washington. He is the only mem-
ber of the committee from Pittsburg.
Ex-President Harrison, of Indianapo-
lis; the Rev. Dr. Samuel J. Nicolls, of
St. Louis; the Rev. Dr. William Mc-
Kibbin, of Cincinnati; the Rev. Dr.
Herrick Johnson, of Chicago; the Rev.
Dr. Solomon P. Sprecher, of Clevel-
and; Hon. J. E. Parsons, of Detroit,
and Judge E. P. C. Humphreys, of
Louisville, will join Dr. Crabbe here
on Monday evening and proceed to
Washington.

The committee feel that as yet they
have made no progress, as the tabu-
lation they had made of the votes of
the presbyteries has been severely
criticised by the leading papers of
the church, and they will undertake
to make a new one. The committee
will attempt at this meeting to frame
the action that they think the general
assembly should adopt. The Rev. Dr.
Charles A. Dickey will preside at the
meeting on Tuesday and the Rev. Dr.
William Henry Roberts will be the
secretary. According to letters he
has received in answer to the call he
issued for the meeting, there will be
a full attendance. It is planned to
make this the last meeting of the
committee before it meets in Phila-
delphia immediately previous to the
meeting of the general assembly in
May. The committee has not settled
yet whether or not it will publish its
report before the assembly meets, as
in either case there will be trouble.

MAY TAKE AN APPEAL.

Alleged That Nuisance Promoters Plan
Further Move, if Injunction
Is Issued.

Cincinnati, Feb. 9.—With the ex-
ception of W. A. Brady, who did not
arrive from New York, until last
night, all witnesses have been heard
on the application for an injunction
against the Jeffries-Ruhlin contest
planned for next Friday night. Coun-
sel for the Saengerfest Athletic club
were not sure last night that Brady
would be called. In any event, coun-
sel on both sides agreed to limit their
argument so that the case will be
closed tonight. Judge Hollister was
not expected to reserve his decision
longer than next Monday.

Even if an injunction shall be is-
sued against a prizefight, so-called, it
is stated that the promoters will
claim the right to pull off a boxing
contest here Friday night and keep
within the bounds of a sparring
match in both the 10-round bout be-
tween Childs and Martin and the 20-

round contest between Jeffries and
Ruhlin. The defendants deny the
jurisdiction of the court to restrain
such a boxing contest as is allowed
under the Ohio statutes, and they in-
sist that they do not intend that there
shall be a violation of the law at any
stage of the contest. The defendants,
on these grounds, expect to appeal
the case to a higher court if Judge
Hollister shall grant the injunction,
and they feel confident that with ab-
solute assurance of a boxing contest
only they will be able to carry out
their program.

One of the witnesses Friday was
Billy Madden, who was on the stand
most of the forenoon and all of the
afternoon.

BODY IDENTIFIED.

Unknown Victim of Erie Railroad Wreck
Was J. T. McDowell.

Greenville, Pa., Feb. 9.—The injured
in the Erie wreck Thursday were all
resting well. Some were not injured
so seriously as first reported.

The body of the Rushville, Ind.,
man was identified as J. T. Dowell,
and the remains were started there.

Major S. R. Jones, of Governor's
Island, N. Y., was here to make dis-
position of the bodies of Sergeant
Hart and Private Patterson and send
surviving members of the Tenth to
their destination.

THANKS FROM THE KING.

Messages to President and House of
Representatives on Memorial
Tributes.

Washington, Feb. 9.—The British
ambassador called at the white house
Friday and presented to the president
an acknowledgement from King Ed-
ward of the appreciation of the presi-
dent's courtesy in attending the mem-
orial services here and of the feel-
ing of sympathy of the people of the
United States.

The speaker laid before the house
the following letter from Acting Sec-
retary of State Hill:

"I have the honor to inform you of
the receipt of a telegram yesterday
from the ambassador to Great Brit-
ain, reporting that his majesty's min-
ister for foreign affairs laid before
the king the resolutions adopted by
the house of representatives relative
to the death of Queen Victoria, and
that, by the king's command, Lord
Lansdowne expresses the royal ap-
preciation of that mark of respect
and also the additional respect shown
by the house to the memory of the
late queen by its immediate adjourn-
ment."

OFFICIAL PAPER OF THE CITY

SATURDAY, FEBRUARY 9, 1901.

A GOOD MAN.

He must be, according to his own statement, when we met him this morning at the corner of Fourth and Broadway: "The wicked stand on slippery places; but I can't."

MANY A SLIP.

Last evening, Williams & Co. sent for the writer, gave him a nice order for job work, emphasized the fact that it must be hustled, as they needed it at once. We made immediate preparations to hustle, but will now postpone.

OOM PAUL.

And now the fiat of the physician has gone forth that brave and gallant old Paul Kruger is nearing death's door, the victim of heart failure. He has been a notable figure in the history of the Transvaal, and has won the respect and esteem of the civilized world. He has been loyal and true to the land he loves so well.

BLIND LEADING THE BLIND.

It was on upper Broadway this morning. A fair and winsome maiden was in distress, as she wore no rubbers and was surely out on the slide. A gallant gentleman came to her aid from an adjoining residence, and he too was short on rubbers, with the result that it was a clear case of the blind leading the blind; and the gentleman seemed the more helpless of the two. It was a clear case of united we stand, divided we fall. To make matters worse, a crowd had assembled on the sidewalk, and they gazed at the would-be rescuer unmercifully, until he stood and glared at his tormentors like a tiger at bay.

SKULLDUGGERY.

The men who indulge in a personal, malicious battle against their employers, ignoring and setting aside all rules and regulations made for the control and guidance of the union body to which they claim to belong, are not union workmen, by any manner of means. On the contrary, they are unfair and non-union men, of the very worst character and calibre, and they will work untold harm and evil to not only the branch to which they are supposed to belong, but to every union in the city of East Liverpool.

Might is not right; and trickery and chicanery and skullduggery and rascality will reap a harvest which will astonish the contemptible and cowardly creatures who are sowing such seed.

PUBLIC SENTIMENT.

Public sentiment, when guided and directed aright, is a powerful engine, and destruction awaits those who at-

tempt to stem the tide. Pittsburg officials have winked at indulgence in prize fights, and Christian public sentiment, guided by ministers of the gospel who are gallant and fearless in the advocacy of the right, has decided that prize fights in that locality shall cease. And now this same public sentiment should control in Ohio. Our city ministers, men who love God and humanity, should not hesitate a moment in addressing letters to Governor Nash, upholding him in his decision that Jeffries and Ruhlin, professional prize fighters, shall not do battle at Cincinnati, or at any place in the great state of Ohio. Further, every minister in East Liverpool should, on Sunday, February 10, 1901, denounce prize fighting and kindred evils in unmeasured terms. If the officials of any community, including East Liverpool, shall so far forget themselves as to wink at lawlessness and encourage lawbreakers in their infamous work and actions, an outraged public sentiment should call them to account with such force as to convince them that they are not dictators, but merely honored servants of the people, elected to do the will and wish of an intelligent constituency.

A DISGRACE.

There has been printed in this city and distributed, within the last few days, a sheet headed: "East Liverpool Union Labor News." Every advertiser in the sheet is in the whisky or beer business, with the exception of two, one a hotel and the other a plumber. It is an out and out whisky sheet, and bears the label of Typographical Union No. 318, and that of the so-called pressmen's union. We do not believe that the members of No. 318 will sanction the use of their honored label on such a sheet; and we do not believe that our honored Trades and Labor Council will sanction such a sheet. It is a disgrace to sober and upright and temperance workmen, men who believe that the saloon is the workman's

worst enemy, and the worst enemy of our common humanity. The man who put those labels on such a sheet is not a true unionist, and the men who put such a sheet out are not friends of the workingmen, or of their wives and children. Typographical Union No. 318 should call the fellow to account who thus disgraces their honored label.

THE NEWS REVIEW.

BIG SUM FOR CARNEGIE

May Get \$130,000,000 if Sale Goes Through.

MUCH MAY BE IN BONDS OR NOTES.

Gary, in Official Statement, Admitted Negotiations Had Been Begun—Likely if Successful, to Be Consummated So as Not to Seriously Disturb Money Market.

New York, Feb. 9.—New developments in connection with the negotiations touching the transfer of the control of the Carnegie Steel company to J. Pierpont Morgan and his associates were first that Mr. Carnegie is to receive \$1,500 for each one thousand dollar share of his stock; second, that minority holders who desire to sell will receive the same terms as those given to Mr. Carnegie; third, that the present stage of the negotiations contemplates the formation of a new corporation, whose bonds will play a large part in the price to be paid Mr. Carnegie, and, fourth, the first public announcement in connection with the pending negotiations of a public character, consisting of a statement by E. H. Gary, president of the Federal Steel company, confirming the news that J. Pierpont Morgan is planning the acquisition of the properties of some of the largest iron and steel companies of the country.

The statement of Judge Gary, however, threw little light upon the details of the great transaction that was in progress, and it was probable that actual official information in this respect will not be obtainable until the deal is really completed. The statement was, however, the subject of much guessing. It apparently confirmed the general impression that all the "Morgan companies" were actively interested in the transaction, and while nothing was said as to the American Steel and Wire company, the fact that counsel for that company attended a conference between President Gary and Mr. Morgan seemed to leave little doubt that the negotiations under way included the steel and wire consolidation.

Four Ministers

Tell of Magical Results Brought About in Burning, Itching, Bleeding Skin Troubles by Dr. Chase's Ointment.

Dr. Chase's Ointment draws more praise from ministers, physicians and lawyers than any other medicine in the world. It is endorsed by every profession.

Extracts from their Letters.

Rev. W. N. Edwards, Baptist minister, 209 Trinity Place, Buffalo, N. Y., writes:

"For over fifteen years the itching piles have been a source of constant annoyance to me, and frequently, too, the suffering has become intense. At times there was bleeding and the itching and burning was beyond endurance. The results I have derived from Dr. Chase's Ointment have been magical and the benefits lasting. I feel it a duty to fellow sufferers to recommend it."

Rev. J. N. Van Natter, Methodist minister, Albion, Wis., writes:

"My wife was terribly afflicted with protruding piles and contemplated a surgical operation when her notice was drawn to Dr. Chase's Ointment, and less than one box effected a cure."

"I then used it for an unsightly and troublesome skin affection, which had baffled medical skill for twenty-five years. Dr. Chase's Ointment thoroughly cured it. For piles and skin disease it is worth its weight in gold."

Rev. J. A. Baldwin, Baptist minister, Arkona, Ont., writes:

"For over twenty years I was a great sufferer from itching and protruding piles. I used many remedies and underwent three very painful surgical operations, all without obtaining any permanent benefit. When about to give up in despair I was told to use Dr. Chase's Ointment and did so, finding relief at once. I used three boxes, and am entirely cured. The itching is all gone. I have advised others to use it, believing it would cure them as it has me."

Rev. Chas. Fish, Methodist minister, 192 Dunn avenue, Toronto, Ont., writes:

"Ten years ago eczema began on my ears and spread over my head and hands. During that time I was a great sufferer. I tried many remedies, and some of the best physicians—specialists on skin diseases—treated me. The first box of Dr. Chase's Ointment gave much relief and five boxes completely cured me. I think my cure a marvel, and gladly recommend Dr. Chase's Ointment."

Just as good for every form of skin trouble, no matter how long standing. 50 cents a box, all dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y.

dentally, it was hinted that interesting developments might occur at the annual meeting of that corporation on Feb. 19. The "Morgan companies" were not generally supposed to have any interest in the financial side of the new deal, but it was believed that they would be disposed to work in harmony with the Morgan interests at least while the market conditions continued favorable. It appeared not unlikely, however, that the Pennsylvania Steel company might be included in the "community of ownership" plans, a theory that gained some color from the report that Pennsylvania railroad capitalists were to have an interest in the financing of the current deal.

A feature suggesting that Mr. Carnegie had in mind the sale of his company at the time it was chartered in New Jersey is the peculiar clause in the charter providing that the directors of the company may dispose of the property of the company as an entirety. It is this clause in the charter that the men who are at present engaged in financing the deal are taking advantage of.

If, as seemed certain, Mr. Carnegie is to receive \$1,500 for each \$1,000 share of his stock, the transfers in his case alone will be the equivalent of nearly \$130,000,000, inasmuch as the great steel magnate's holdings at present amount to about \$86,000,000. If, as seems probable, the minority holders are to be looked after by Mr. Morgan's syndicate, the financing will involve the equivalent of about \$240,000,000.

This is certainly beyond even Mr. Morgan's ability to provide in cash on a short notice for a single transaction without seriously effecting the money market, and no surprise was therefore felt when Judge Gary made the statement that the actual transfers of cash would be small. Mr. Carnegie is not likely to give up such gilt-edged security as the shares of his own company for anything less attractive, and no surprise was expressed in financial circles when it became known that the financial plan contemplated either the reorganization on a greatly enlarged capital basis of one of the existing steel companies or the formation of an entirely new corporation to hold the controlling stock of the various component companies, and especially the stock acquired by the Carnegie company, all of such stock to constitute the collateral of the new bonds, which shall be issued to Mr. Carnegie and to such other of the present Carnegie company stockholders might wish to sell out with him.

It may be stated on what is practically official authority that the full details of the proposed scheme of financing the big transfer had not been completed up to a late hour Friday afternoon, but the general outlines of the plan, it was stated, do contemplate either the issue of bonds or a system of notes guaranteed in the manner already described.

DIDN'T EFFECT BUSINESS.

Dun's Review So Stated as to Steel Stocks Operations—Figures on Failures.

New York, Feb. 9.—R. G. Dun & Co.'s Weekly Review of Trade, issued today, said in part:

More seasonable weather in the east has brought up the volume of business in retail lines a little this week, and at the west and south distribution of merchandise is on a satisfactory scale. Prices of staple products show but moderate decline, and quotations of manufactured goods are steady in all directions. Pressure to sell is everywhere conspicuously absent. Jobbers report good orders for spring goods, particularly for the western trade, and the only complaint still comes from the woolen goods market in the east, which has not yet felt the expected stimulus. In this line, however, prices do not decline and agents expect better conditions.

Large operations in the stocks of leading steel companies do not effect the volume of business or the prices of their products as yet, and probably will have no material influence on the future. Quotations will have no material influence in the future. Quotations will depend on the relation of supply and demand, which at present gives an undertone of great strength. This is most evident in bills which cannot be secured at the pool price. While former quotations are nominally in force, it would re-

quire a material advance to secure contracts. Structural forms are also in notably brisk demand, and it is impossible to secure prompt delivery of any finished steel at Pittsburgh. Chicago makers also have orders far ahead and at all leading points the placing of new business is limited to small contracts. Bessemer pig is firm at the recent advance to \$13.50, although no large sales are reported. Cut nails have followed the advance, \$2 per ton, while many other forms are expected to be put on a higher level when producers meet.

Textile industries do not revive appreciably, even the lower temperature failing to infuse life into woollens, aside from better retail dealings. Manufacturers make small purchases of raw material, showing preference for the cheaper grades, and even then insisting on small concessions. London auction operations became less satisfactory as the sale progressed.

Wheat fell below 90 cents, ample snow affording the desired protection in winter wheat states, while the chief support was a better inquiry on foreign account, including moderate purchases for Spain. Atlantic exports for the week, including flour, were 2,874,111 bushels, against 2,247,402 bushels in the week preceding, and 2,115,875 bushels a year ago.

Corn is quiet, maintaining an advance of over 7 cents compared with the same date last year. Failures for the week were 269 in the United States, against 245 last year, and 35 in Canada, against 33 last year.

DECLINED IN VOLUME.

There Were Not So Many Deals in Stock Market Friday.

New York, Feb. 9.—There was considerable falling off in the volume of dealing in stocks Friday, and the decline would have been much more marked had it not been for the bringing forward into activity of a horde of low-priced stocks of the class denominated among the brokers as "cats and dogs."

The rumor of a projected consolidation in the several railroad lines took on various forms, some of which were authoritatively denied. The gains in this class of railroad stocks ran all the way from 1 to 5 points. St. Joe and Grand Island first gaining 5 and Wabash common 4%. All of the securities of both roads were effected in a less degree, and there were gains besides in the Colorado and Southern stocks, Denver and Rio Grande, Fort Worth and Rio Grande, the Chicago, Indianapolis and Louisville stocks, Peoria and Eastern, the Cleveland, Lorain and Wheeling stocks, the Wheeling and Lake Erie stocks, Texas and Pacific, North America, Kanawha and Michigan and Mexican Central. The rest of the railroad list was singularly sluggish all day, and there was only a handful of stocks that got as much as a point away from Thursday night at any time, and most of the list vibrated narrowly both above and below Thursday night's level.

The steel stocks made a great show of strength just at the opening. The plate jumping nearly 3 points, Steel and Wire 2 1/4 and Federal Steel only 1 1/4. None of the advances were fully maintained except Federal Steel, and business in the group fell to comparatively small proportions. Sugar had an advance of 3/4.

There was a continuance of the activity of the bond market Friday, but there were reactions on profit taking at some points. Wabash debenture B's advanced 6 points, and the A's 2%. Total sales, par value, \$8,400,000.

United States bonds were all unchanged on the last call.

SOUTH SIDE.

Will Oppose It.

The move toward incorporation here does not seem to meet with the degree of approval that was expected. A number of people, including several business men, are very positive that the move will not succeed and a quiet but determined campaign is on foot to defeat the measure between now and election day. The fact that incorporation would mean increased taxes, and the probability that saloons would be licensed should the measure succeed are the strongest arguments being used against it.

Nearly all the large property holders favor immediate incorporation, and argue that the public improvements which would result, and the establishment of municipal government would more than compensate for the extra taxation.

The result can only be determined by the election, but public sentiment at present would seem to indicate the measure's defeat.

Fulton Entered Suit.

George Fulton has entered suit against ex-Constable R. A. Allison in Justice Bradley's court at New Cumberland for \$250 damages, claimed by plaintiff on account of alleged unlawful detention of personal property, consisting of a team of horses held under an attachment proceeding by the Chester Grocery company for an unpaid bill.

The case will be heard on the 14th, and the outcome is awaited with interest.

New Business Block.

Contractor McDonald has just been furnished with plans for the erection of a two-story business room and residence to be built by Richard Banfield.

The new structure will occupy a lot adjoining Banfield's present property, and will be a modern structure. Work will be commenced in the early spring.

A Serious Accident.

George Wycoff, while felling a tree near here yesterday, was struck on the head by a falling limb and knocked about 20 feet down a steep hillside. He received a scalp wound about two and a half inches long and was badly shaken up, but no bones were broken. Dr. Lewis sewed up and dressed the wound and the young man is improving rapidly.

He Had a Scheme.

A Southside citizen who was unable to get down the hill to his stable in the ordinary way this morning procured a small board and slid down, striking the building with force enough to give him a good jolting. A number of other residents unwillingly tried similar experiments without the use of a board.

CONDITION OF TRADE.

More Visitors Here During January

This Year Than for Several Preceding Seasons.

Crockery Journal.

Good activity continues in the pottery trade at East Liverpool. A large number of buyers were present the past week. The number of visiting buyers during January this year has

been greater than that of several preceding seasons. It is true all have not placed large orders, but liberal buying has been done by many, and all have left more or less demands. Some came just to look over the new lines and offerings for this year, made unimportant purchases and will buy later, either through mail or traveling salesmen.

Orders are beginning to come in from traveling men, and last week a good sprinkling of them were received

by various potteries. The salesmen who have been home since January all expect to get out the present week, except those of the Edwin Knowles China company. This new plant will not have its samples ready till after the middle of this month.

The first month of 1901 has shown unusual activity, and the potters enter February with a good current trade, and with the highest hopes for a year of prosperity that will surpass those of the closing century.
